*Proceedings of the Madras Government, Public Works Department,
12th February 1869.*

Read the following letters :—

No. 317. From the Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 6th January 1869, No. 187.

1. I have the honour to report that the estimates for repairs and maintenance of tools and plant in the Godavery District already sanctioned, amount to Rupees 13,194—(besides the amount (Rupees 735) of an estimate for widening the hull of one of our dredges, which is this day submitted for sanction). This exceeds the amount of the grant* for this service at my disposal by Rupees 7,394.

* Rupees 5,800.

† For instance, hull plates of the steamer ("Fred and May,") in such a state that she had to be docked to save her from sinking in the Cocanada river.

2. Some of the work is of such a nature that it must be done without delay, and I have, therefore, ordered it to be put in hand, and I have now the honour to apply for authority being granted to the Controller to pass expenditure under this head on my sanction, without appropriation of funds, to be adjusted by transfers hereafter before the close of the year.

REFERRED to the Controller of Public Works Accounts, who will report whether funds are likely to be available before the close of the year for adjusting the proposed additional outlay.

(Signed) CHARLES A. ORR, Colonel, R. E.,
16th January 1869. Secretary to Government, P.W.D.

No. 318. From the Acting Controller of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 18th January 1869, No. 4,326.

1. Adverting to your Endorsement on the accompanying letter from the Superintending Engineer of the 1st Division, under date the 6th ultimo, No. 187, I have the honour to subjoin a statement of the actual expenditure under "Tools and Plant" in the several Divisions of this Presidency during the eight months ended 30th November last :—

Proceedings of the Madras Government, Public Works Department,
12th February 1869.

2. From the above it will be seen that out of a total assignment of Rupees 42,800, Rupees 26,451 have been actually expended up to the end of November, and as in the closing months of the official year the outlay under all heads is usually in excess of that incurred from April to November, I am of opinion that the unexpended balance of Rupees 16,349, shown in the foregoing statement, will not more than suffice to meet the ordinary requirements of the various ranges between the 1st December 1868 and 31st March 1869. Entertaining this view, I do not think it will be possible, in the event of Government authorizing the expenditure proposed by the Superintending Engineer of the 1st Division, to adjust the large excess outlay of Rupees 7,394 from savings on the grants for other districts under "Tools and Plant."

No. 319. From the Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 21st January 1869, No. 196.

1. I have the honour to report that the General Superintendent of Public Works Stores has supplied tools, which cost Rupees 1,678-2-9, to Imperial works in No. II. Range, Vizagapatam, and solicits early adjustment of the same.

2. As there are no funds available under head Tools to cover the charge, I have, in anticipation of further allotment being obtained, requested Captain Beatty to remit the amount to the General Superintendent.

3. The necessary provision will be made in my transfer's statement now under preparation, but meanwhile I request that Government will be pleased to authorize the Controller to pass the expenditure under head "Tools" "New supplies," without appropriation of funds.

* In Vizagapatam District.

No. 320.

ORDER THEREON, 12th February 1869, No. 456.

ACCOUNT, No. 14.

The foregoing letter from the Controller of Public Works Accounts will be communicated to the Superintending Engineer of the 1st Division. The proceeding of the Superintending Engineer in sanctioning estimates for the repair of tools and plant in excess of the sanctioned grant for the Godavery District, and in directing the works to be put in hand, was irregular, and the Government must now only look to Captain Ryves to adjust the outlay which may have been incurred without an assignment of funds.
