No. 424. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Poonachy Hills, 13th January 1869, No. 177 :—

The experience of another monsoon having again confirmed my doubts as to the necessity for incurring a heavy outlay on the construction of a new Calingulah and surplus Channel, proposed by Major Farewell in October 1865, I have the honour to report accordingly with reference to G. O. No. 2,937 of 16th September 1868. With due continuance of the careful attention paid by Major Farewell to the state of the old Calingulah and Channel, I have every reason to believe that they will continue to answer the purpose for which they were constructed.
