*Proceedings of the Madras Government, Public Works Department,
7th July 1869.*

No. 129. Read the following Proceedings of the Madras Government in the
Military Department.

Communicating to the Public Works Department a letter from the Inspector General of Ordnance, re-transmitting the plan of the buildings intended for Snider Ammunition Factory, in view to their being submitted for the inspection and study of the Engineer Officers to whom the construction of the same will be entrusted (Here enter 26th June 1869, No. 2,417.)

No. 130. ORDER THEREON, 7th July 1869, No. 2,194.

MILITARY WORKS, No. 12.

COMMUNICATED to the Superintending Engineer of the 4th Division for information and guidance.

(True Extract.)

Colonel, R. E.,
Secretary to Government.

G O, 7th July 1869, No. 2,194.

Proceedings of the Madras Government, Military Department,
26th June 1869.

Read the following letter, —

No. 727. From the Acting Inspector General of Ordnance and Magazines, to the Officiating Secretary to Government, Military Department; dated Fort Saint George, 16th June 1869, No. 73.

I have the honor to acknowledge the receipt of plans numbered 2, 3, 4, showing the alterations made in the original plans of the buildings intended for the Snider Ammunition Factory to be constructed in this Presidency

2. Under paragraph 2 of letter No. 396M, from Inspector General of Military Works, Government of India, addressed to the Secretary to Government, Public Works Department, Madras, published in Proceedings, Madras Government, (Public Works Department) No. 1756 of 29th May 1869, nothing can be done as to the actual commencement of the building in this Presidency, till the communication referred to in that paragraph is received.

3. It appears to me however that it would be well to forward the plans* in order that they may be submitted for the inspection and study of the Engineer Officers, to whom the construction of the building will be entrusted, pending the receipt of the "communication" to be awaited from Bengal, and I herewith re-transmit them with that view.

4. The subject of paragraph 5 of extract from a report from the Inspector of Stores, India Office, dated 23rd April 1869, appears to require the immediate attention of the Engineer Department, also that a decision should be come to as to the adoption of the modified saw windowed roof, or the A roof, with clerestory windows. I would suggest that this be made in communication with this Department.

5. I take this opportunity of bringing to notice that the index to the figures in the original ground plan of the Factory, applied for in letter from my predecessor as per margin, has not as yet been received, and I would suggest that application may be made to Bengal to know if a copy of this paper has been received there, and, if so, that a copy may be supplied to this Presidency at earliest convenience.

No. 728. ORDER THEREON, 26th June 1869, No. 2417.

Communicated to the Public Works Department, with reference to paragraph 3.

2. It is observed that the index referred to in the concluding paragraph was furnished to the Inspector General of Ordnance, with Proceedings of Government, No. 2314, dated 18th June 1869.

(True Extract.)

A. M. S.
Colonel,

Offg. Secretary to Government.

To the Public Works Department,
