No. 349. ORDER THEREON, 15th July 1869, No. 2,307.

MILITARY WORKS, No. 26.

THE estimate submitted by the Superintending Engineer of the 3rd Division in September 1868 for the construction of a Main Guard at Bellary amounted to Rupees 24,500, but in consequence of certain modifications suggested by the Government of India in the plan of the building, Lieutenant-Colonel Moberly reported that the estimate would require revision and would be greatly exceeded. Instead however of this being the case, the amount of the estimate now laid before Government, with the letter recorded at the head of these Proceedings, is only Rupees 22,630, or Rupees 1,870 below the originally estimated cost. Lieutenant-Colonel Moberly will explain the cause of this difference, and he will state whether the present estimate provides for every thing necessary.
