Proceedings of the Madras Government, Public Works Department, 5th February 1870.

No. 98. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Bezwarah, 18th January 1870, No. 147:—

I HAVE the honour to enclose a statement showing the amount of balance from reduced allotments produced by the stoppage of all Repair and Minor New Works, amounting to Rupees 8,206.

One Memorandnm.

2. On the other hand Rupees 6,998-8-9 have been spent in excess of the reduced allotment on "Agricultural Repairs." I trust that the Government will allow me to expend the Rupees 1,207-7-3 still available on "Agricultural Repairs," which are very much required.

3. I would give an example where loss of revenue is caused immediately, and by which the confidence of contractors is shaken.

4. In consequence of very heavy local rainfall the calingulah in the Colair lake could not discharge sufficient to relieve the tract of country above it to the very banks of the Ryves' canal. A breach was, therefore, made in the embankment to save many thousands of rupees worth of wet crops. Owing to the financial difficulty I have been unable to provide Rupees 700 required for repairing this breach; and in consequence, the second-crop cultivation in the Colair, which is dependent on the water, being retained, has not been carried out, and the fishery contractors in the lake have lost their prospect of catching any fish.

5. I have been obliged to refer them to the Collector.
