*Proceedings of the Madras Government, Public Works Department,
8th January 1869.*

No. 171. Read the following letter from the Inspector-General of Police, to the Secretary to Government, Public Works Department, dated Madras, 13th December 1869, No. 7,982 —

I HAVE the honour to forward a letter from the Superintendent of Police, Nellore, from which it would appear that the instructions of Government regarding the Station-house at Tangella (paragraph 3, G. O., No 3,265, of 21st October 1867, Public Works Department,) have not been carried out, and that the building is still unavailable for Police accommodation

2 An additional sum of Rupees 205 was sanctioned by G. O., No 2,347, of 22nd July 1868, for the re-construction of this Station-house, and this amount has been expended apparently to no purpose.

From the Superintendent of Police, Nellore, to the Inspector-General of Police, Madras, dated Nellore, 8th December 1869, No 636

I HAVE the honour, with reference to Government Order, 21st October 1867, No 3,265, in the Public Works Department, to report that the Police Station-house of Tangella is in an unsafe state. The walls are cracked, the roof is concave owing to the weakness of the rafters, the door will neither open nor shut, the interior construction is faulty, there being communication between the male and female wards, in short, the orders of Government alluded to above have never been carried out, and consequently the Station-house has never been occupied by the Police, as no accommodation exists for the Police, except a village choultry in a ruinous state. I request instructions may be given, in the Public Works Department, to the local officer to have the building put into a proper state.

No 172 ORDER THEREON, 8th January 1870, No. 89.

CIVIL WORKS, No. 17.

In Proceedings, No 3,265, dated 21st October 1867, the Government, while noticing the defective construction of the

Police Station-house at Tangella in the Nellore District, directed the execution of the necessary repairs with a view to the building being made available for early occupation. In June 1868, however, the Superintending Engineer having represented that the condition of the Station-house, as described by Mr. Sayce, the Range Officer, was such as to render it expedient to re-construct it, His Excellency the Governor in Council sanctioned the requisite outlay, which was estimated at Rupees 205, provided the Superintending Engineer was satisfied that the disruption of the walls of the old building was due solely to the causes mentioned by Mr. Sayce, and that there was no reason to doubt that the foundations to be given to the new building would be sufficient to ensure stability.

2 It appears from the papers read at the head of these Proceedings that the amount sanctioned has been expended, but that, notwithstanding this outlay, the building is still insecure and unfit for occupation. Lieutenant-Colonel Moberly will report fully on the subject and on the nature of the work carried out on the estimate of Rupees 205 above referred to.
