*Proceedings of the Madras Government, Public Works Department,
20th April 1870*

No. 231. Read the following Proceedings of the Madras Government in the Revenue Department, dated 31st March 1870, No. 144.

Read the following —

Proceedings of the Board of Revenue, dated 21st March 1870

Proceedings of the Madras Government, Revenue Department, dated 4th February 1870, No. 13.

COMMUNICATED to the Collector of the Godavery District.

2. The Board observe that the state of disrepair in which the Bayana Calingulah for one reason or another has been left ever since it was breached in 1853, has been the source of loss to Government in peshcush, alone of Rupees 13,910-10-8. The loss in the Government villages has been probably as much during this period of inaction.

3. It seems therefore highly desirable, both in the interests of the Government and the people, that prompt and decisive action should be taken in the matter.

No. 232

ORDER THEREON, 20th April 1870, No. 1,036.

IRRIGATION, No. 14.

ORDERED to be communicated to the Superintending Engineer, 1st Division, in continuation of G. O. of the 27th January last, No. 341.

2. Major Fischer should report as early as possible what steps he has taken to ascertain what work is required to make the Bayana Calingulah really effective.

3. The Superintending Engineer is further requested to submit a short history of the calingulah from 1853. If, as stated by the Board of Revenue, the breach which occurred in the year just mentioned has never been closed, Major Fischer should explain the circumstances.

4. From the Superintending Engineer's letter of the 20th December last, No. 3,351, it would seem that the want of height of the dam, in relation to the channels connected with it, is the cause of its inefficiency, and, if that height formerly sufficed, it would follow that the channels require clearing. Full information should be submitted with as little delay as possible, and the Government hope that whatever may be required to restore the efficiency of the dam will be estimated for in time to admit of the completion of the work before the commencement of the approaching season of irrigation.

*Proceedings of the Madras Government, Public Works Department,
20th April 1870*

No. 233. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Public Works Department, dated Cuddalore, 2nd April 1870, No 1 —

I HAVE the honour to request that Government will be pleased to exempt A. Coopposawmy Moodelliar, at present Draughtsman and Estimate-maker in the 4th Range, South Arcot, from passing the examination for Talook Overseer on the following grounds

2 He has been in the department since October 1860, first as apprentice and afterwards as Draughtsman and Estimate-maker. From September 1867 to December 1868 he was employed as a Surveyor on 90 rupees a month, and during that time he prepared, under the Range Officer, all the surveys, sections, plans, and estimates connected with the

	RS
Mehmatur Anicut, estimate	55,800
Pelandoray do. do.	1,98,235
Katoomylore do. do.	11,000
Vyalore Tank (enlargement)	6,065

He superintended successfully the building of the Mehmatur Anicut, and, as he is also a first-class Draughtsman and Estimate-maker, he might be employed most advantageously as Talook Overseer when there is a vacancy in that grade

No. 234. ORDER THEREON, 20th April 1870, No 1,037.

ESTABLISHMENT, No 16.

UNDER the very favourable testimony borne in this letter to the qualifications of A. Coopposawmy Moodelly,

His Excellency the Governor in Council is pleased to exempt him from the prescribed examination for the grade of Talook Overseer.

Coopers and Lybrand, 1 - Permission granted for exempting A. Cooper and Lybrand, at present draughtsmen and estimate maker in the 1st Range of the South Arcot District, from passing the prescribed examination for the grade of Talook Officer.

Superintending Engineer's Office, S. Arcot.
Andalane, 2^d April 1870.

From, The Superintending Engineer,
S. Arcot

To, The Secretary to Government,
Public Works Department.

Sir,

I have the honor to request that Government will be pleased to exempt A. Coopers and Lybrand, at present draughtsmen and estimate maker in the 1st Range, South Arcot, from passing the examination for Talook Officer on the following grounds.

2. He has been in the department since October 1860, first as apprentice, and afterwards as draughtsman and estimate maker. From September 1864 to December 1868 he was employed as a Surveyor on 90 rupees a month, and during that time he prepared, under the range officer, all the surveys, sections,

plans and estimates connected with the
Mechanical annuit-Estimate Rs. 55,800.

Belandray annuit—"—"198,235.

Katoomy low annuit—"—"11,000.

Yfulore tank [enlargement]—"—"6,065.

He superintended successfully the building
of the Mechanical annuit, and as he is
also a first class draughtsman, and
estimate maker, he might be employed
most advantageously as Sahnig Overseer,
when there is a vacancy in that grade.

I have the honor to be
Sir,

Your most obedient servant.
