Proceedings of the Madras Government, Public Works Department, 15th January 1870

No. 345. Read the following Endorsement of the Acting Consulting Engineer for the Madras Irrigation and Canal Company, dated Madras, 7th January 1870, No. 118 —

Read the following letter from the Agent and Manager of the Madras Irrigation and Canal Company, to the Consulting Engineer for the Madras Irrigation and Canal Company, dated Madras, 5th January 1870, No. 4

You have recently had an opportunity of judging of the state of forwardness which has been attained in the Canal works

2 We expect to have completed a very large proportion of those works by the first day of next July, and it therefore becomes necessary to provide for a reduction of the Engineering Staff about that time.

3. By their agreements, our Engineers are entitled to six months' notice, and I have accordingly intimated to fourteen of these gentlemen that their services will be dispensed with on the 30th June 1870.

4. I trust that in the meantime such arrangements will be made by Government in concert with this Company as may enable me to re-engage them or some of them for the prosecution of other portions of our project, but as that hope does not amount to a certainty, and as it would unquestionably be a serious loss and detriment to this country to allow such an able body of Engineers as we have with much pains and at great cost imported and established in India to leave it, I have the honour to submit the names of the gentlemen, to whom I refer with a request that you will do me the favour to submit them to the Government of Fort St George and the Government of India, with a view to their being employed on State works.

FORWARDED to Government for information.

(Signed) J. CARPENDALE, Colonel, R.E.,
Ag. Consg. Engr. for the M I. and C. Company.
