Dated	28. 7.	1870.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
28th July 1870.*

No. 431. Read the following Endorsement of the Acting Consulting Engineer for Irrigation and Canal Company, dated Coonoor, 8th July 1870, No. 35:—

Read the following —

Extract from a letter from the Agent and Manager of the Madras Irrigation and Canal Company, dated 1st July 1870, No. 289

* * * *

3. With regard to my own establishment, as I have had occasion to observe on previous occasions, the labour (while so far as internal administration is concerned it is not much lightened) is by the introduction of the new system of examination considerably increased, and is altogether beyond my control, so that, although I had looked forward to being able to effect considerable reductions as the construction of the works approached completion, I now find myself debarred from effecting that object. I cannot at this moment supply you with data in support of this statement, but in a few days I hope to be able to send you a comparative return, which will, I think, fully bear it out.

4. During the last six weeks the work of reduction in the divisional establishments has commenced and is steadily proceeding. In my own department the same process will be adopted so soon as the state of the work renders it possible.

5. I may observe that the manufacture and supply to the divisions of lock fittings, a work undertaken within a comparatively recent period, adds considerably to the work of the Agent's Department.

6. I take this opportunity of reminding you that when Government, by their Order, No. 922, of the 20th March 1869, sanctioned our present establishments, they stated that "after the 30th June 1870 they would be subject to revision."

7. As some little time will be required for such a revision, I have the honour to solicit that the sanction accorded by the order just referred to may continue in force until a revised statement can be prepared.
