G.O. No. 1918	Press Mis.
179.	
Dated 12- 8	1870.

Not to be folded or roughly handled

GROUNDS OF PROPOSITION.

THE transfer proposed in order to provide funds for item No. 1 is made in pursuance of the recommendation of a Coroner's Jury to raise the parapets with a view to preventing accidents.

2. Item No. 2 is a work left unfinished under the Orders of this Government of the 29th December last directing the suspension of operations on all Imperial new works during the remainder of the past year, and now urgently requiring to be completed.

3. Item No. 3. The transfer proposed for this work is to enable the Superintending Engineer to reimburse the Travancore State the outlay incurred on behalf of the Imperial Government on the Post Office at Trivandram.

4. Item No. 4. The proposed grant is very urgently required in order to complete the alterations necessary to the Collegal Talook Cutcherry, which is much needed for occupation, no other building being available.

5. The appropriation against Item No. 5 is intended to place the Executive Engineer in funds to collect materials for a Deputy Collector's Cutcherry at Manantoddy. The building hitherto used is in a dilapidated condition, and heavy expense will have to be incurred in providing accommodation for the Deputy Collector until the new Cutcherry is built. In a climate like that of Wynaad it is not possible to prepare materials for and to erect a building within one and the same season.

6. The grant for item No. 6 is to cover in part the sums due to contractors for work actually done. The balance of the estimate has been provided by appropriations from the grant for Minor Works.

7. Item No. 7 calls for no remark.

8. The appropriation of Rupees 400 proposed against item No. 8 is to meet charges for securing the Chilka Lake canal through the sand ridge till the banks attain their proper slope and the tidal current its true direction, as also to cover a small outlay incurred on emergency. The work, although unfinished, is not provided with a grant in the current year's Budget, and this is owing to the very small sum which was at the disposal of this Government on account of New Works under "Communications."

Colonel, R.E.,
Secretary to Government.Proceedings of the Madras Government, Public Works Department,
12th August 1870.Grounds of Proposition

The transfer proposed in order to provide funds for Item No. 1 is made in pursuance of the recommendation of a Commission's duty to raise the parapets & walls a view to preventing accidents.

Item No. 2 is a work left unfinished under the orders of the Govt. of the 29th Dec. last directing the suspension of operations on all Imperial New works during the remainder of the past year, & now urgently requiring to be completed.

Item No. 3. The transfer proposed for this work is to enable the Superintending Engineer to reimburse the Travancore State the outlay incurred on behalf of the Imperial Govt.

on the Post Office at Tirumangalam.

Item No 2. The proposed grant is very urgently required in order to complete the alterations necessary to the building at Saloor, butcherry, which is much needed for occupation, no other building being available.

The appropriation against item No 5 is intended to place the Executive Engineer in funds to collect materials for a Deputy Collector's butcherry at Mandaboor. The building hitherto used is in a dilapidated condition, and heavy expenses will have to be incurred in providing accommodation for the Dy. Collector until the new butcherry is built. In a climate like that of Mysnad it is not possible to prepare materials for and erect a building within one and the same season.

The grant for item No 6 is to cover in part the sums due to Contractors for work actually done. The balance of the estimate has been provided by appropriations from

the grant for minor works.

Item No 7 calls for no remark.

The appropriation of Rs 400 proposed against item No 8 is to meet charges for securing the Chelka Lake canal through the sand ridges till the banks attain their proper slope and the tidal current its true direction, as also to cover a small outlay incurred on emergency. The work, although unfinished, is not provided with grant in the current year's budget, and this is owing to the very small sum which was at the disposal of the Govt. on account of new works, under communications.
