*Proceedings of the Madras Government, Public Works Department,
29th November 1870.*

No. 525. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 14th November 1870, No. 2,736:—

I REGRET to report, for the information of the Government, that the fever which was so prevalent in this district last year is breaking out again, several cases having already occurred, and some terminating fatally.

2. I request, therefore, you will be good enough to obtain the sanction of Government to a large supply of quinine and podopholin being sent up here at once. The fever appears to be of an exceedingly bilious type, and I can think of nothing better for it than the latter medicine; but perhaps the medical authorities in Madras will be able to assist us with advice regarding its treatment.

3. As this fever appears to be in some way connected with the irrigation, I venture to suggest a Medical Officer be deputed to report specially on the subject. Dr. Aitkin was of opinion it was a very dangerous kind, and required a good deal of observation and careful treatment.

No. 526. ORDER THEREON, 29th November 1870, No. 2,874.

ESTABLISHMENT, No. 60.

COMMUNICATED to the Inspector-General of the Indian Medical Department, with a view to arrangements being

made for the supply of the requisite medicines, and for an expression of his opinion as to the advisability of deputing a Medical Officer to the Godavery under the circumstances represented by Major Fischer.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Acting Superintending Engineer, 1st Division.
" Inspector-General of the Indian Medical Department.
" Public Department.

Erd. S. T. Augustin.

No 2736 Supg. Engineers Office 12th Division
Dowlaishevran 14th November 1876

From

Major J. Fischer R.C.
Ag. Supg. Engineer 12th Dⁿ

To
Colonel C. A. O'Byrne R.C.
Secretary to Government S.W.D.
Madras

Sir,
I regret to report for the in-
formation of the Government that, the fever
which was so prevalent in this District last
year is breaking out again, several cases
having already occurred and some termi-
nating fatally.

I request therefore you will
be good enough to obtain the sanction of
Government to a large supply of Quinine &
Podopholin being sent up here at once. The
fever appears to be of an exceedingly bilious
type

type, and I can think of nothing better for
it than the latter medicine, the first op.

the Medical Authorities in London with
able assistance with advice regarding its
treatment. A. J. 1911

3 " " As this paper appeared to be
in some way connected with the virgates,
Lynch took it to J. G. D. A Medical Officer be-
deputed to report especially on the subject.
Dr. Cutler was of opinion it was a very
dangerous kind, and required a good
deal of observation and careful treatment.

Stained the hands & face &
signs of treatment

Don't forget to check in tonight

1. The first part of the document is a list of names and dates, which appears to be a record of some kind. The names are written in a cursive script, and the dates are in a more formal, printed style. The list is organized into columns, with names in the first column and dates in the second.

2. The second part of the document is a series of paragraphs of text, written in a cursive script. The text is somewhat difficult to read due to the handwriting, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the text is written in a single column.

3. The third part of the document is a series of paragraphs of text, written in a cursive script. The text is somewhat difficult to read due to the handwriting, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the text is written in a single column.

4. The fourth part of the document is a series of paragraphs of text, written in a cursive script. The text is somewhat difficult to read due to the handwriting, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the text is written in a single column.

5. The fifth part of the document is a series of paragraphs of text, written in a cursive script. The text is somewhat difficult to read due to the handwriting, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the text is written in a single column.
