Dated 13. 12.	1870.

Not to be folded or roughly handled

Mr. Assistant Engineer James Grime having, on the 1st instant, telegraphed to me that Supervisor Coopoosawmy Rajoo was dangerously ill, I directed him forthwith to proceed to Cochin, and, if necessary, at once to relieve the Supervisor of the charge of the Harbour Works there.

3. Cochin is so remotely situated with reference to Palghaut, the nearest Range to it in this Division, to which it is temporarily attached, that it is almost out of the question to expect the Range Officer of the Palghaut Range to exercise any careful supervision over works at that town; I would, therefore, beg respectfully to recommend that it hereafter be made a special and quite distinct charge

ESTABLISHMENT, No. 19.

2. As it is essential that he should be replaced by a person thoroughly conversant with the system adopted in Tanjore of closing breaches by means of Modussils, etc., the Superintending Engineer of the 6th Division will be requested to state whether he can recommend any of his subordinates as possessing the special qualifications necessary for employment at Cochin.
