*Proceedings of the Madras Government, Revenue Department,
14th December 1869.*

5. In paragraph 12 of their Order quoted in the first paragraph of these Proceedings, Government approved of the entertainment of an establishment,* at a monthly cost of Rupees 235, in the Board's Office for the audit of the Local Fund Charges. The Board find that this establishment is quite unequal to

the duties expected from it. The two officers who have been sanctioned find it impossible to go through the audit of the Local Fund Charges thoroughly, and at the same time keep the several Registers connected with them posted up to date. For want of a sufficient number of hands, the examination of the District, Revised, and Supplemental Budgets, the list of Incomplete Works, the numerous estimates for original works, the allotment of funds for works not provided for in the Budgets, and the transfer of funds from one work to another, are seriously delayed in the Board's Office.

6. The Reviews for the preparation of separate Budgets of the twenty districts, which has been done this year for the first time, has entailed much labour on the establishment, and has thrown the other work of the department in arrears. The correspondence connected with Local Funds is gradually increasing, and is now so bulky as to make it impossible to avoid the accumulation of arrears.

7. The Head Accountant of the Board's Office has, in addition to his other work, charge of the Local Fund Department. He is both Chief Accountant in the Cutcherry and Assistant in the management of Local Funds. His work is very heavy, and the Board consider him under-paid. Ultimately, the Board believe it will be found necessary to separate the two offices and employ a highly paid Manager for Local Funds alone, but they are not prepared to recommend so radical a change at present.

8. It is absolutely necessary, however, for the efficient performance of the duties connected with Local Funds, that two additional Accountants should be entertained for this work alone. The Board propose to entertain them from the 1st January, and to fix their salaries at Rupees 70 and Rupees 60 a month. The cost of the establishment already sanctioned is Rupees 235, and the proposed addition will be Rupees 130, making a total of Rupees 365 per mensem, or Rupees 4,380 per annum. This amount is distributable to the several districts in the following proportions :—

	RS.	RS.
19 Districts at 226	=	4,294
1 Do. at 86	=	86
		4,380

A provision of Rupees 4,460 in round sum has been made in the Budget by slightly reducing the estimated cost of Public Works supervision in the case of a few districts and from the unappropriated balances of the other districts.

9. In the Budget of the current official year (1869-70) there is an allotment of Rupees 2,940 on account of the establishment in the Board's Office. The actual

expenditure, including the cost of the proposed establishment, will amount to Rupees 3,080, as hereunder particularized:—

Cost of establishment already sanctioned from March to 31st December 1869, ten months, at Rupees 235 a month	RS. 2,350
Cost of the present and proposed establishment from 1st January to 28th February 1870, two months, at Rupees 365 a month	730
	3,080

The salary for March 1870 will fall due in April, and can be met from the provision in the Budget for 1870-71. The cost of establishment for the current year is in excess of the allotment by Rupees 140, which can be met from savings under other heads of charge.

10. The detailed Jungle Conservancy Fund Budget will be submitted to Government on receipt of the District Budgets, which have been ordered to be prepared in the new form recently circulated by the Board to all Collectors.

11. The Order of Government directing that the District Budgets be in future submitted to Government so as to admit of their being returned by the 10th November, will be communicated to all Collectors, and every effort will be made to comply with these instructions next year.

Accounts.

THE District Road Fund Budgets of the several Collectorates having been already considered and disposed of by the Government, the General Budget

and Statements now submitted by the Board will be transferred to the Public Works Department.

2. The total assets of the District Road Fund for the next official year are estimated at Rupees 27,57,550, inclusive of the probable balance of Rupees 3,77,410 at the close of the current year, and the proposed outlay for the next year is Rupees 26,50,950 as shown below:—

3. In paragraphs 5 to 8 of their Proceedings the Board explain the inadequacy of the establishment at present allowed for the transaction of business connected with the Local Fund in their Office. They point out that the examination of the District, Revised, and Supplemental Budgets; the List of Incomplete Works; the numerous estimates for original works; the allotment of funds for works not provided for in the Budget; and other matters; are seriously delayed; and add that the correspondence connected with the fund is gradually increasing, and is now so bulky as to make it impossible to avoid accumulation of arrears. Under these circumstances the Board's proposal to entertain two additional Accountants from 1st January 1870 on the salaries of Rupees 70 and 60 per mensem, respectively, is sanctioned as a temporary measure. The Governor in Council is, however, disposed to think that the audit of the District Road Cess Funds might with advantage be transferred to the Controller of Public Works Accounts; and he requests that the Board will report on this suggestion in communication with the Controller.

4. The estimates of Receipts and Charges on account of the other funds noted below are passed:—

5. The detailed Budget for the Jungle Conservancy Fund should be submitted not later than January 1870, in order that instructions for utilizing the sums available may reach the Collectors before the next official year commences. The Government have already pointed out to the Board the necessity of spending the balance under the Public Bungalow Fund, in the repair of old bungalows, and construction of new buildings where urgently required, and their attention will again be called to the subject.

Reserve			2,37,980
Total			26,50,950

In pursuance to the order of the Board we placed the responsibility of the establishment at present allowed for the transaction of business connected with the local fund in their office. They point out that the remuneration of the District Engineer is not sufficient for the duties of the position. In the Budget, the District Engineer is estimated for original work, the allotment of funds for work

not provided for in the Budget and other matters are seriously delayed. We add that the correspondence connected with the fund is gradually increasing and is now so bulky as to make it impossible to assist accounts of execution of work. Under these circumstances, the Board's proposal to entertain two additional accountants from 1st January 1890 - the salaries of Rs 4000 each in addition to the existing salaries is sanctioned as a temporary measure. The Governor in Council is however disposed to think that the audit of the District Road Cess funds might with advantage be transferred to the Controller of Public Works Accounts and he requests that the Board will report on this suggestion in communication with the Controller.

4. The estimates of Receipts and charges on account of the other funds noted below are passed -
