*Proceedings of the Madras Government, Public Works Department,
27th January 1870.*

No. 664. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 17th January 1870, No. 2,967:—

As no funds have been provided in the Budget for 1870-71 for continuing work on the several Talook Cutcherries, etc., which were commenced and stopped, I have the honour to request the orders of Government as to whether the watchers employed are to be dismissed from the 1st April next, as, owing to the grants under "Minor Works, Civil Buildings" being so limited, the pay of these men cannot be met from that source.

2. I would further observe that the materials, such as chunam, etc., collected would deteriorate for want of proper covering, and that orders are also necessary for the disposal of the wood-work which has been received for some of the cutcherries.

No. 665. ORDER THEREON, 27th January, 1870, No. 344.

CIVIL WORKS, No. 71.

The Superintending Engineer of the 3rd Division will be informed that arrangements should be at once made

for the early disposal of the chunam and other perishable materials referred to, and for the removal of the wood-work into store, in order that the services of the watchers may be dispensed with at the earliest possible date.
