G.O. No. 367	Press ~~Mis.~~
708-89	
Dated 28. 1	1870.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
28th January 1870.*

Read the following Endorsement of the Acting Chief Secretary to Government, dated Fort Saint George, 25th January 1870:—

No. 708. Read the following letter from the Acting Assay Master and Commissioner of Paper Currency, Madras, to the Chief Secretary to Government, Fort Saint George, dated Madras, 21st January 1870, No. 405:—

With reference to the Proceedings of Government, No. 598, dated 9th December 1869, I find that the proposal to remove the machinery out of the Stamping-room and to build new cellars in it for our bullion and coin reserve would be attended with so much expense and inconvenience that it appears in every way preferable to allow the present building, which is used as a Treasury and Bullion Office, to remain unaltered.

2. Further consideration shows that a complete partition of the late Mint buildings, so as to adapt the west half for the purposes of the Army Clothing Department could be more readily and conveniently effected by running a wall across the premises a few feet to the west of, and parallel with, the "Treasury."

3. Before further steps are taken, I would respectfully suggest that my proposal for a wall across the premises be referred to the Superintending Engineer for report.

FORWARDED to the Public Works Department in continuation of G. O., dated the 9th December 1869, No. 598.

(Signed) J. I. MINCHIN,
Acting Chief Secretary.

No. 709. ORDER THEREON, 28th January 1870, No. 367.

CIVIL WORKS, No. 77.

COMMUNICATED to the Superintending Engineer of the 4th Division in continuation of G. O., No. 3,951, of the 17th December 1869, with a view to his reporting on the suggestion referred to in paragraph 3.

H. Mr. Bullion Dept

Madras

21st January 1870.

From

D. H. Bellet Esq^r

Act^y & Asst^y Masters

Commissioners of Paper
Currency.

The Chief Secretary
to Government.

Sir,

Fort St George.

With reference to the Proceed-
ings of Government No 598 dated
9th December 1869 I find that the
proposal to remove the Machinery
out of the Stamping Room and to
build new Cellars in it for our Bullion
and Coin reserve would be attended
with so much expense and inconvenience
that it appears in every way preferable
to allow the present Building which
is used as a Treasury and Bullion
Office to remain unaltered.

2. Further consideration shews
that a complete partition of the late
Mint Buildings, so as to adapt
the West half for the purposes of
the

the Army Clothing Department
could be more readily and conveniently
effected by running a wall across the
premises a few feet to the West of and
parallel with the "Specimen".

Before further steps are taken
I would respectfully suggest that my
proposal for a wall across the premises
be referred to the Superintending
Engineer for report.

I have the honor to be,
Sir

Your most obedient servant,
H. Kellum

 Giveny.
 For the Chief Secretary
 to Government

July 8th 1870 - Delight to find
you have been happy
Strand July 6th

States that the proposal
to remove the machinery
out of the stamping press &
to build New Cellar with
for Dublin & Civil Service
would be expensive and in-
convenient & that it appears
preferable that the present
building be widened and
opening to Dublin Office
to remove matters out
suggests that his proposal
should also cover the premises
between the two Courts
~~the premises~~ 10022. Duper
