Dated 25 2 1872.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 25th February 1870.

No. 507. Read the following letter from the Superintending Engineer, 5th Division, to the Secretary to Government, Public Works Department, dated Cuddalore, 2nd February 1870, No. 181 :—

WITH reference to G. O., No. 3,111, of the 24th September 1869, paragraph 2, I have the honour to state that, the interior staircases of the additional pavilion being of masonry, those referred to by the Inspector-General of Military Works appear to be the outside staircases from the bath-rooms. There is not much likelihood of the building being set on fire, and there is no objection, on this ground, to the wooden staircases. But, as they are rather unsightly appendages to the building, something better may be designed in their place, when the work may be ordered to be put in hand.

No. 508. ORDER THEREON, 25th February 1870, No. 638.

MILITARY WORKS, No. 5.

UNDER the opinion expressed in this letter the Superintending Engineer of the 5th Division will furnish a plan and estimate of the description of work which he would propose to substitute for the wooden staircases referred to.

(True Extract.)

To

The Secretary to Government,
P.D.

Sir,

With reference to G.O. No. 3111 of the 24th September 1869, para 2, I have the honor to state that, the interior staircases of the additional Pavilion being of masonry, those referred to by the Inspector General of Military works, appear to be the outside staircases from the bath rooms. There is not much likelihood of the building being set on fire and there is no objection, on this ground, to the wooden staircases. But as they are rather unsightly appendages to the building, some thing better may be designed in their place,

place when the work may be ordered to be put in hand.

I have the honor to be
Sir,
