Proceedings of the Madras Government, Public Works Department, 28th February 1870.

No. 526. Read the following letter from the Officiating Collector of Malabar to the Secretary to Government, Public Works Department, dated Calicut, 17th February 1870, No. 14:—

I HAVE the honour to submit a letter from the Civil Surgeon at this station setting forth the necessity for re-constructing a gate and fence round the Fish Oil Factory building.

2. As the repairs are urgently required, I beg that the Superintending Engineer may, if funds are available, be directed to prepare, forthwith, an estimate for the work, and execute it as soon as possible.

From the Civil Surgeon, Malabar, to the Collector of Malabar, dated Calicut, 15th February 1870, No. 45.

IN order to afford better security to the Government Stores lodged in the Fish Liver Oil Factory at Calicut, I requested the Executive Engineer to re-construct the gate and fence around the building; but that officer informs me that there are no funds wherewith to execute the necessary work. I have the honour to bring the subject to your notice, with a view to your taking some steps in the matter, as I consider it very unsafe to allow the stores to remain in the state they are in, all open and exposed. Cattle break through to eat the straw used in packing jars; and bottles are exposed, and tempt those inclined to steal.

No. 527. ORDER THEREON, 28th February 1870, No. 648.

CIVIL WORKS, No. 62.

COMMUNICATED to the Superintending Engineer of the 7th Division who will submit an estimate for the proposed repairs and state what probability there is of his being in a position to provide the requisite funds during the present or ensuing official year.
