GROUNDS OF PROPOSITION.

THE papers submitted with letter No. 3,532, dated 4th November 1869, will have apprized the Government of India of the difficulty which the large reduction of the current year's ordinary assignment for Public Works in this Presidency has caused in the adjustment of expenditure incurred in the early months of the year, chiefly on Talook Cutcherries and Subsidiary Jails, in the hope that an additional grant would be sanctioned for the uninterrupted progress of those buildings, which were commenced in 1868-69 with a special allotment of five lacs of rupees. That grant having been refused by the Government of India, and the ordinary assignment having been reduced by Rupees 16,70,000, this Government, with every desire to fully carry out the wishes of the Government of India as communicated in their recent orders regarding the re-appropriation of Budget credits, have found it impossible to effect adjustments, which would otherwise have been practicable, in strict accordance with the rules laid down for guidance, and His Excellency the Governor in Council trusts that, looking to the exceptional circumstances of the case, the Government of India will be pleased to accord sanction to the transfers exhibited in this statement, and to any others which may be proposed during the current year for adjusting all similar expenditure.

Colonel. R.E.,

Secretary to Government.

The papers submitted with letter N^o 3532 dated 4th November 1869 will have apprized the Government of India of the difficulty which the large reduction of the current year's ordinary assignment for Public Works in this Presidency has caused in the adjustment of expenditure incurred in the early months of the year, chiefly on Salvo Duties and Subsidary Sails, in the hope that an additional grant would be sanctioned for the uninterrupted progress of those buildings, which were commenced in 1868-69 with a special allotment of five lacs of Rupees. That grant having been refused by the Government of India, and the ordinary assignment having been reduced by Rs 16,70,000, His Government, with every desire to fulfil the wishes of the Government of India as communicated in their recent orders regarding the reappropriation of Budget credits, have found it impossible to effect adjustments, which would otherwise have been practicable, in strict accordance with the rules laid down for guidance, and His Excellency the Governor in Council trusts that, looking to the exceptional circumstances of the case, the Government of India will be pleased to accord sanction to the transfers exhibited in this Statement, and to any others which may be proposed during the current year for adjusting all similar expenditure.
