*Proceedings of the Madras Government, Public Works Department,  
9th March 1870.*

No. 199. Read the following letter from the Controller of Public Works Accounts, to the Secretary to Government, Public Works Department, dated Madras, 7th February 1870, No. 2,155.

I HAVE the honour, with reference to the Proceedings marginally noted to forward, for the consideration and order of Government, a Statement of Advances remaining unadjusted for three months and upwards on the 30th September 1869.

2. Some of these advances are of long standing, and, from the remarks of the local officers, there appears to be little or no hope of their recovery. It is for many reasons desirable that all such advances should be removed from the books of the Public Works Department.

From K. F. NORDMANN, Esq., Assistant Engineer, North Wynnad Range, to the Controller of Public Works Accounts, dated Manantoddy, 4th May 1867, No. 5.

With reference to your Circular Memorandum, No. 28, dated 15th March last, I have the honour to address you on the subject of outstanding advances in the North Wynnad Range.

2. Amount advanced on account of legal expenses in a law suit against the late Mr. H. B. Smith. Since the Government, in their Order No. 182, dated 16th January 1866, relinquished all proceedings against that gentleman, there is no hope of this amount being ever recovered.

3. Advance by Mr. Overseer Potter for labour and material.—Rupees 40 of this were advanced by the Overseer with my sanction to a young man named Godfrey to enable him to collect coolies in Mysore for the Terriote Road Work. Such advance was not made to an apparently untrustworthy person or a person without any standing, for the young man was the son of a clergyman in Mysore and had borne a fair reputation. That reputation, however, he did not justify, for he, through his own neglect, failed to accomplish the business to do which he had been deputed, and could give no satisfactory account of the money when he was brought up by warrant. He was sentenced to six months' imprisonment for criminal breach of trust, and there is, I am afraid, no chance of recovering from him the sum of Rupees 40.

4. Rupees 25 were advanced to one Mahomed Esaf for making bricks; he failed to carry out his contract, was apprehended, and sentenced by the Deputy Magistrate of Wynnad to one month's imprisonment under the provisions of Act XIII. of 1859. There is no probability of this advance being recovered.

5. Advance to Mr. Nass for collecting coolies.—This advance was made in October 1865 for the purpose stated above to one John Nass, an apparently respectable young man from Travancore. He failed, however, to accomplish his duty, nor did he return with the money. A Police warrant has been out after him for several months, but there seems no likelihood of recovering the money even should the man be apprehended and punished.

6. Advance by Mr. Overseer Smith for labour.—This is the balance of an unrecovered advance, the greater portion of which was deducted from the Overseer's pay because he had failed to take proper and timely steps to recover the advance when he could and should have done so. The Overseer was dismissed and remanded to his regiment in G. O., No. 2,053, dated 29th June 1866, and, there being no more civil pay due to him, this balance could not be recovered from his salary; and, as his military pay cannot perhaps be touched for this purpose, it seems unlikely that the sum of Rupees 3-4-10 can be recovered.

7. I, therefore, beg to request that the sanction of Government may be obtained for writing the above enumerated items, aggregating Rupees 222-5-4, off to, "Profit and Loss."

8. There are, further, in my "Stock" Accounts shown the advances named in the margin, which were made some years ago by the late Major Syme and the late Mr. H. B. Smith, and of the recovery of which there is not even a remote chance. I beg that these also be ordered to be written off to "Profit and Loss" Account.

| 104 0 6 | Expenses incurred.            | Wynaad. On account of legal expenses against the late Mr. H. B. Smith. | 1865-66        | Debitable to "Profit and Loss." All the claims against the late Mr. Smith have been relinquished by Government, (vide G. O. No. 182, dated 16th Jan. 1866.) There is no probability of getting this amount recovered, as the parties have been apprehended and sentenced by the Deputy Magistrate of Wynaad for criminal breach of trust and breach of contract under Act XIII. of 1859, one for six months and the other for one month, (vide letter from North Wynaad Range Officer, No. 5, of 1867, to the Controller of Public Works Accounts.) This is a balance of a certain amount advanced by Overseer Smith for labour, greater portion of which has been recovered by deductions from his salary. The Overseer has been dismissed under G. O. No. 2, 053, dated 29th June 1866, and the amount still remains unrecovered. (vide letter from the officer in charge of North Wynaad Range, No. 5, of 1867, to the Controller of Public Works Accounts.) | Nil                                 | This amount should be written off to "Profit and Loss" as there is no chance of recovering the money, the Government having relinquished their claim. The parties having been convicted and the circumstances reported to the Controller in 1867, it is doubtful whether this amount should be written off. | Under the explanations furnished, authority is granted for writing off this amount to "Profit and Loss." | 65 0 0  | Mahomed Esuf and Mr. Godfrey. | For work and material.                                                 | Do.            | Drummond Smith was an Overseer in the Public Works Department and was dismissed in June 1866. As an Overseer he advanced money to certain parties; all has been recovered but Rupees 3-4-10. Drummond Smith is attached to Her Majesty's 102nd Regiment supposed to be at Kaimpoor. It is doubtful whether this amount can now be recovered.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Nil                                 | Recommended to be written off. He has been called upon to make good the money but did not receive a reply. He is now employed as an Overseer of the Municipal Commission at Madras. There is little or no hope of this money being recovered. The man absconded and a warrant followed him, but without success. (vide letter from the officer in charge of North Wynaad Range to Controller, No. 5, of 1867. He now appears to have been employed in Branton's Press, Madras. This is the balance of an advance made by Mr. O'Shaughnessy in 1864 through a Mr. Rochfort of Mysore. Two | Maikavadom Pillay, late Acting Overseer, is now employed in the Municipal Department at Madras, and the Range Officer will be instructed to place himself in communication with the President of the Municipal Commission at Madras. | No recovery has yet been made.          | The result of the steps ordered to be taken should be reported.           |

It seems hopeless to recover this amount.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Range Officers, South-East Wynaad Range, these amounts had better be written off to "Profit and Loss," as there is not the least hopes of recovering these amounts. | to authorize these charges to be written off. |
| 12 0 0   | Cost of warrant against do.   | Of no avail                   | Do.            | This sum was spent in issuing warrants against the parties who received advances in the preceding items, as the parties were not apprehended, this amount cannot be recovered. This is the balance of an advance made by Mr. O'Shaughnessy in 1864 through the Deputy Collector of South Arcot. The bricklayers left the work and went away. Upon this the Deputy Collector was asked for assistance, who intimated that it was found difficult to recover the money, and a person should be specially paid for to point out the absconding parties, and he recommended Mr. O'Shaughnessy to file a suit, but it is now impossible to recover the amount. | Recommended to be written off under the explanation given in the preceding items.                                                                                   | Do. do. do. ...                               |
| 138 14 0 | Bricklayers from South Arcot. | For work                      | Do.            | I cannot see that any steps were taken in the matter by Mr. O'Shaughnessy to recover the money beyond the application mentioned. From the distance of the locality and want of knowledge of the persons of the absconders, succeeding Range Officers have not had means of taking any proceeding with the least hope of success. I recommend that the amount be written off, as also the succeeding item.                                                                                                                                                                                                                                                 | Do. do. do. ...                                                                                                                                                     | Do. do. do. ...                               |

| Rs. A. P.<br>8 2 1 | Superintendent Smith.                                       | 7th Division—<br>(Continued.)<br>Wynaad Dist.—<br>(Continued.)<br>For work ... | 1864-65        | ...                       | This sum was advanced by Drummer Smith, late Overseer, Public Works Department, to his brother, Superintendent Smith. Drummer Smith has been dismissed from the Public Works Department, and whereabouts of Smith is not known, hence there is no chance of recovering this amount.                                                                                                                                                                                                                                                                                                                   | The explanation of the Range Officer is somewhat obscure; but if Drummer Smith made the advance on his own responsibility and he is still with his regiment I presume the amount may be recovered if it is thought right to make the attempt. | Under the circumstances brought to notice, there seems no alternative but to authorize these charges to be written off. |
| 100 0 0            | Mr. Wilkinson, Superintendent of Works on the Caroor Ghaut. | Money paid to Lascar Kadra, who absconded.                                     | 1865-66        | ...                       | When Mr. O'Shaughnessy was at Nackarag in January 1866 he sent to Mr. Wilkinson, who was working on the Caroor Ghaut, Rupees 100 in charge of Mr. Wilkinson's lascar and a maistry named Nujab. Both of these men slept at the eleventh mile of the ghaut, three miles from Nackarag. In the morning the maistry awoke and found the lascar had absconded, leaving his belt behind him. The lascar was a native of Mysore. The case was prosecuted, and the maistry was released from want of evidence. The lascar has never been arrested, and no traces have been found to lead to his whereabouts. | Recommended to be struck off.                                                                                                                                                                                                                 | Submitted for the orders of Government.                                                                                 |

| 26 8 0  | Blacksmith Cooramasamy and Carpenter Achary of Madras. | .....                                          | Do.     | ... | This sum is the balance of an advance made to these parties. They absconded leaving the balance unadjusted.                                                                                                          | The information here afforded by the Range Officer is insufficient to enable me to give any opinion. I will call on him for further particulars as to date of advance and whether any steps have been taken for recovery. | No further report has been received.                                |

E. All has been recovered, but this amount the Commissioner does not recognize as unsettled accounts.                                   | This should either be written off or recovered from Lieutenant Shepherd, R. E., should he not be able to account for it, or else charged to the works on which the elephants were employed.                                                                       | The orders of Government are requested.                                          | Authorized to be written off. |
| 70 4 7    | Late Maistry Domingo, working between Sultan's Battery and Poongly Cottah. | For work-people....                                                                    | No date given....     | This amount, or accounts to that amount, was supposed to have been left by the deceased, but nothing was forthcoming, since Lieutenant Shepherd, R. E., charged the amount under the head of Miscellaneous advances. | From the tried probity of the man I have no doubt that the money was expended by the deceased in payment for labour. He was too ill for a few days before his death to make up any accounts. I recommend the amount to be charged to the works as an expenditure. | As no accounts are forthcoming, it is suggested that this amount be written off. | Do. do. do.                   |

| 37 0 0 | To Savyers ...              | For works in Vythery.                  | April 1869 ... | .....                                                               | This amount was advanced to certain sawyers for working in Vythery Range during last season. Before they could work off the advance they got sick and went down to Trichoor, out of whom six died, leaving a sum of Rs. 86-12-4 to be accounted for. The deaths of these individuals having been certified by the Trichoor Tahsildar, the amount should be written off. | Recommended accordingly.                                 | Sanctioned. |

There is no probability of getting this amount recovered as the parties have been apprehended and sentenced by the Deputy Magistrate of Wynnaad for Criminal Breach of Trust and Breach of Contract under Act 13 of 1859; one for 6 months and the other for one month. Vide letter from North Wynnaad Range Officer No. 5 of 1864 to the Controller of P. & A. Accounts.

The parties having been convicted, and the circumstances reported of Mr. Nordmann's defalcation in 1864 in his letter, No 5 of 1867 is doubtless rather than this amount should be written off.

45 126 Samuel and  
 for a party

These men said  
 they were willing  
 to come and work  
 off their advances  
 but they never  
 came, and when  
 warrants were  
 issued they were  
 not found, and  
 it is of no use  
 to issue fresh  
 warrants.

This is a balance  
 of a large sum  
 already advanced  
 by Lieutenant  
 Shepherd R.E. &  
 all has been  
 recovered, but  
 this amount the  
 Commissariat  
 Officer does not  
 recognize as  
 unsettled ac-  
 counts.

This should either be  
 written off, or recovered  
 from Lieutenant Shep-  
 herd R.E. should he  
 not be able to account  
 for it, or else charged  
 to the war Ko on  
 which the Elephants  
 were employed.

The orders of  
 Government are  
 requested.

From the tried  
prohibity of the man  
I have no doubt that  
the money was expend  
ed by the deceased in  
payment for  
labor. He was too ill  
for a few days before  
his death to make up  
any accounts. I recom-  
mend the amount be  
charged to the works  
as an expenditure.

As no accounts are  
forthcoming, it is  
suggested that this  
amount be written  
off.

37. 20 Lawyers For work in April 1869.

This amount was advanced to certain Lawyers for working in Wythery Range during last season. Before they could work off the advance they got sick, and went down to Trechoor, out of whom 6 died, leaving a sum of Rs. 36-12-4 to be accounted for. The deaths of these individuals having been certified by the Trechoor Sanildar the amount should be written off.

Recommended accordingly
