No. 489. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 3rd March 1870, No. 4,213:—

I REGRET to report that on my return to this station it was brought to my notice that a severe accident had occurred to a cooly woman employed in filling in a large hole below the under-sluices. The woman was conveyed at once to the dispensary at Rajahmundry as no medical assistance could be afforded here, and the enclosed is the Acting Zillah Surgeon's report, from which it will be observed that it will be many months before she will be able, if ever, to work again. As she has to support a large family, I beg respectfully to solicit the Government will be pleased to allow me to make her a monthly allowance from the Budget funds until she is reported fit for work.

2. I beg in the meanwhile to urge upon Government the importance and necessity of deputing either an Apothecary or Dresser, with a small dispensary, at this station, not only on account of the accidents that are likely to take place on the anicuts and quarries, but also on account of the distance which has to be travelled before medical aid of any kind can be procured.

No. 490. ORDER THEREON, 30th March 1870, No. 889.

ESTABLISHMENT, No. 30.

UNDER the circumstances represented in this letter, the Government sanction the payment of weekly wages

to the injured cooly woman for four months at the rate disbursed to her prior to the accident, the allowance ceasing in the event of her recovering before the expiration of that period. The charge will be debited to the work on which the woman was employed.

2. Paragraph 2 will be communicated to the Inspector-General of the Indian Medical Department with a view to his reporting whether arrangements cannot be made for deputing a qualified Medical Subordinate to Dowlaishweram.
