*Proceedings of the Madras Government, Public Works Department,
31st March 1870.*

No. 518. Read the following letter from the Inspector-General of Police, to the Secretary to Government, Public Works Department, dated Madras, 21st March 1870, No. 1,783:—

WITH reference to Resolution of Government of India, No. 90, dated 14th October, recorded in G. O., No. 3,721, dated 22nd November 1869, I have the honour to request instructions as to the course to be pursued by this department. Hitherto schemes for expenditure on buildings have been sent in by District Officers, and on the schemes being approved estimates have been framed for the sanction of Government. Hereafter, however, the estimates must be sanctioned *before* any provision is made in the Public Works Budget; but, as this has not been done for 1870-71, no funds will apparently be available, save for the completion and construction of the few buildings already sanctioned.

2. There is another point on which I request instructions. Schemes for the expenditure of the allotments made from the amount for Police buildings entered in Public Works Department Budget for 1870-71 have been received, but under the rules at present in force estimates for the buildings erected from funds so provided must be prepared and the works carried out by Officers of Public Works Department only.

3. As there is no provision for buildings passed in the Civil Budget, the schemes lately received include works which do not require skilled labour or supervision of Officers of Public Works Department, and as it is necessary that some buildings of this description should be erected, especially in the hill tracts and other remote places, I request to be informed if, in such cases, the Order of Government referred to may be considered as in abeyance.

No. 519. ORDER THEREON, 31st March 1870, No. 903.

ACCOUNT, No. 60.

THE Inspector-General of Police will be informed that, as the Orders of the Government of India prohibiting the commencement of any work except on a sanctioned estimate and allotment are peremptory, the Government are unable to make any general exception in favour of Police buildings, but in the case of buildings to be constructed in hill tracts and in other remote places where considerable inconvenience is likely to be occasioned if a strict adherence to the rule regarding estimates be insisted upon, His Excellency the Governor in Council will not object to authorize such exceptions as may appear advisable on a special application being made in each case.

2. The Inspector-General of Police will furnish lists of the incomplete works referred to in paragraph 1 which it may be proposed to carry out, and of the entirely new works which are ready to be undertaken on sanctioned estimates in each district. On a comparison of these returns with the Budget provision in Part II., the Government will be in a position to determine what money will be available for other Police buildings which have not yet been formally sanctioned.

Proceedings of the Madras Government, Public Works Department,
31st March 1870.

3. The construction of sanctioned buildings for which appropriations have been duly made and which do not require skilled supervision may as heretofore be carried out by the Police Department on advances from Range Officers.
