MADRAS RECORD OFFICE.

Government of Madras.

Public works DEPARTMENT.

G.O. No. 928	Press
17-18	Mis.
Dated 1. 4.	1870.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
1st April 1870.*

No. 17. Read the following letter from the Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Tanjore, 18th March 1870, No. 1,442 :—

I HAVE the honour to inform you that I am entitled to three months' privilege leave from the 16th April, and, if Government will permit me to avail myself of

No. 1,281. this leave, I will forego the furlough for which I applied on the 9th February. If the privilege leave is granted I would avail myself of it early in May, after submitting the Administration Report for 1869-70 and the statements, etc., connected with the requirements for 1870-71.

2. In order that the work of the division may be as little disturbed as possible during my absence, I would propose that Captain Montgomerie, the Range Officer of Tanjore, should act for me during my absence, Mr. Supervisor Walton being placed in charge of No. 1 Range in which he is now employed.

3. Captain Vertue is the Senior Executive Engineer in the division, but were he put in charge of the division Captain Montgomerie would have to be posted to Trichinopoly, and, as he does not know the Trichinopoly Range, this arrangement would probably, in a measure, retard work in Trichinopoly, and would prevent Captain Montgomerie from exercising that supervision over the works in his own Range which he would be able to exercise were he allowed to remain in Tanjore, and which it is desirable he should exercise, as he will return to the charge of the Range again within so short a period as three months.

P.S.—I have no present intention of taking any other leave within a period of six months after the expiration of the leave applied for in this letter.

No. 18. ORDER THEREON, 1st April 1870, No. 928.

ESTABLISHMENT, No. 1.

THE privilege leave applied for by Captain Oakes will be granted, but, looking to the importance of restricting the outlay on establishments as much as possible, the Government do not consider it necessary to appoint an Officer to act as Superintending Engineer during Captain Oakes' absence, and Captain Montgomerie will therefore take charge and conduct the duties of the Office.

From

Captain P. F. Wake's R.E.

Suby. Engineer, 6th Division

To

Colonel C. A. Orr R.E.

Secretary to Government P.W.D.

Sir,

I have the honor to inform you that I am entitled to 3 months Privilege leave from the 16 April and if Government will permit me to avail myself of this leave I will forego the furlough for which I applied on the 9th February. If the Privilege leave is granted I would avail myself of it early in May after submitting the Administration Report for 1869-70 and the Statements &c connected with the requirements for 1870-71.

In order that the work of the Division may be as little disturbed as possible during my absence I would propose that Captain Montgomerie, the Range Officer of Panjore, should act for me during my absence, Mr. Supervisor Walton being placed in charge of No. 1 Range in which he is now employed.

Captain

Captain Vertue is the Senior
Executive Engineer in the Division but
were he put in charge of the Division
Captain Montgomery would naturally
prefer to Trichinopoly and as he
does not know the Trichinopoly Range,
this arrangement would probably
measure, retard work in Trichinopoly
and would prevent Captain Montgomery
from exercising the Supervision over
the Works in his own Range which he
would be able to exercise were he allowed
to remain in Tanjore and which it is
desirable he should exercise and he
will return to the charge of the Range
again within so short a period as 3 months.

I have the honor to be
Sir

Yours most Obedt. Servant

W. F. Drake
Superintendent Engineer to Division

P.S. I have no present intention of taking
any other leave within a period of six months
after the expiration of the leave applied for in
this letter.
