*Proceedings of the Madras Government, Public Works Department,
8th April 1870.*

No. 124. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 31st March 1870, No. 3,718 —

In G. O., No. 740, dated 9th March 1870, sanction was accorded for an estimate, amounting to Rupees 3,690, for the repair of the Gunganapully Tank in the Cuddapah District. As the items for lengthening the waste weir and for providing an additional escape are purely new works, I have the honour to request to know whether the whole work is to be treated as a repair, or if a portion should be charged to "Minor New Works—Agricultural."

No. 125. ORDER THEREON, 8th April 1870, No. 981.

IRRIGATION, No. 13.

THE Government are of opinion that the estimate, Rupees 3,690, sanctioned in G. O. of the 9th ultimo, No. 740, should be considered as an addition to the cost of restoring the Gunganapully Tank, and it will be treated therefore as a new work, and be provided for from the Reserve under "Agricultural" for 1870-71. The former estimate for the restoration amounted to Rupees 11,080, and was sanctioned in the order of the 5th July 1867, No. 2,000.

Sir,

In G.O. No. 740 dated 9th March 1890, sanction was accorded for an Estimate amounting to Rs 3690/- for the repair of the Gungamapully Tanks in the Cuddalore District. As the items for lengthening the Waste Weir and for providing an additional escape are purely new works, I have the honor to request to know whether the whole work is to be treated as a repair, or if a portion should be charged to "Minor New Works, Agricultural".

I have the honor to be &c.
