*Proceedings of the Madras Government, Public Works Department,
12th September 1870.*

No. 191. Read the following letter from the Acting Superintending Engineer, 5th Division, to the Secretary to Government, Public Works Department, dated Camp at Andiappanoor, 6th September 1870, No. 114:—

I HAVE the honour to forward, for the sanction of Government, the accompanying bill for Rupees 21-8-0, being the cost of four sheets of the Trigonometrical Survey, including charges for mounting and postage, purchased by the Executive Engineer, Oosoor Range.

One Bill.
,, Controller's Memorandum.

2. In July 1867 Mr. Paynter was supplied with three sheets of the survey from this office, and in February 1870 he applied for another set, reporting that the former were not to be discovered in his office, and attributing the loss of the same to the carelessness of the Range Draughtsman, Mr. James Jervis. Mr. Jervis being called upon for an explanation, states that the sheets were lent by the Range Officer to Mr. Overseer Milne while investigating the Badatalab project, and that they were on the Range lists when he, Mr. Jervis, went on sick leave to Salem in February, 1869. On his return he reported the three Trigonometrical sheets to be missing, and he does not know how they were lost.

3. The new set of the survey sheets should have been obtained from the Stationery office without cash payment; but before any steps were taken by this office on Mr. Paynter's application, he himself purchased the maps from his own funds, and afterwards, on my order, charged the amount in the Range contingent bill for June 1870. It would now appear from the accompanying Memorandum of the Controller, dated 15th July 1870, No. 203, that the charge cannot be admitted by him without the special sanction of Government.

4. As, however, the survey sheets in question were purchased solely for public use and as the cause of the loss of those supplied in 1867 cannot be well ascertained, I request that the Controller may be authorized to pass, as a special case, the bill now submitted.

No. 192. ORDER THEREON, 12th September 1870, No. 2,189.

ACCOUNT, No. 19.

UNDER the circumstances brought to notice the Controller of Public Works Accounts is authorized to pass the bill for Rupees 21-8-0 submitted with this letter, the charge being debited to the contingent allowance for the Oosoor Range Office.
