Proceedings of the Madras Government, Public Works Department, 13th September 1870.

No. 206. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Camp at Sattiamungalum, 20th August 1870, No. 106 :—

I HAVE the honour to inform you that the estimate of Rupees 4,485, for enclosing the compounds of certain buildings at Calicut, sanctioned in G. O., No. 2,520, of 2nd August 1869, but not carried out for want of funds, included provision for a 3-feet wall round the Fish Oil Factory, for which an estimate for gate and fence is called for in G. O., No. 648, of 28th February 1870. Such a gate and wooden fence is estimated for by the Range Officer at Rupees 470, while a sum of Rupees 485 will be sufficient to carry out the larger estimate so far as to put up the wall already sanctioned round the Fish Oil Factory. I accordingly recommend the latter course be adopted, and beg to report that the only funds available under the head of Minor New Works in Malabar are Rupees 500 under " Miscellaneous."

No. 207. ORDER THEREON, 13th September 1870, No. 2,194.

CIVIL WORKS, No. 15.

As it would appear from this letter that little saving will be effected by substituting a hedge and ditch with a suitable gate for the stone wall originally estimated for as a fence to the Fish Oil Factory at Calicut, His Excellency the Governor in Council sanctions the erection of the wall at a cost of Rupees 485 from funds to be provided from the source indicated by the Acting Superintending Engineer.
