Proceedings of the Madras Government, Public Works Department, 26th September 1870.

No. 442. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Coimbatore, 5th September 1870, No. 122:—

I HAVE the honour to submit, for the sanction of Government, a plan and estimate, amounting to Rupees 600, for re-building a bridge on the 28th mile of the Imperial road from Calicut to the Mysore frontier, *via* the Tambracherry Ghaut and Sultan's Battery, No. XXI. The bridge in question is to cross a very rapid nullah; the old bridge of 12 feet span and one abutment was washed away on the first burst of the present monsoon, and a temporary structure was erected, which the Range officer reports has stood the monsoon.

One plan.
One estimate, Rupees 600, No. 8 of 1870-71.

2. As the maintenance allowance for the road, namely, Rupees 2,970, is not sufficient to admit of the bridge-work being carried out from it, if funds cannot now be provided, the necessary application will be made for them from the Reserve of 1871-72.

ORDER THEREON, 26th September 1870, No. 2,315.

No. 443. CIVIL WORKS, No. 39.

THE estimate of Rupees 600 submitted with this letter is sanctioned.

2. There being no funds available at present for appropriation to the work the Government will endeavour to provide them later in the year. In the event, however, of their not being able to do so, the Acting Superintending Engineer will apply for a grant after the 1st April next.
