B

No. 99. Read the following letter from the General Superintendent of Public Works Stores and Workshops, to the Secretary to Government, Public Works Department, dated Chepauk, 1st October 1870, No. 733:—

In the bi-monthly statement of Public Works Stores under provision by the Home Government, the Director-General of Stores for India requests information as to whether the Ruling Machine "indented for is required by the Lithographic Department for Map work "or for general Engravers' use, and for straight lines only or for lines of various "pattern."

2. The Superintendent of the Lithographic Press states that the Ruling Machine indented for is required to be of the superior description used by Engravers, with arrangements to produce lines of various pattern, but with the addition of adapting the ordinary drawing pen of a size suitable to the machine to substitute the etching needle or pin ordinarily used by Engravers at times when lithographic work is required to be executed; but if the above arrangement is impracticable, the Superintendent requests that the drawing pen arrangement may be omitted, and the Ruling Machine, with the necessary apparatus to produce lines of various pattern, be supplied.

3. I respectfully solicit that the above information may be forwarded to the Home Government as requested.

From the Superintendent of the Government Lithographic Press, to the General Superintendent of Public Works Stores and Workshops, dated Fort Saint George, 28th September 1870, No. 5.

With reference to your letter, No. 709, dated 27th September 1870, I have the honour to state that the Ruling Machine indented for for the use of the Lithographic Department is required to be of the superior description used by Engravers with arrangements to produce lines of various pattern, but with the addition (which appears to me practicable) of adapting the ordinary drawing pen of a size suitable to the machine to substitute the etching needle or pin ordinarily used by Engravers at times when lithographic work is required to be executed.

2. In the event of its impracticability the drawing pen arrangement may be omitted, and the Ruling Machine, with the necessary apparatus to produce lines of various pattern, be supplied.

No. 100. ORDER THEREON, 6th October 1870, No. 2,416.

ACCOUNT, No. 10.

ORDERED that this letter be forwarded to the Home Government.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,

Secretary to Government.

The Secretary to Government

Public Works Department

Fort Saint George

Sir,

In the Bi-monthly statement of Public Works Stores under provision by the Home Government the Director General of Stores for India requests information as to whether the Ruling Machine indicated for, is required by the Lithographic Department for Maps work or for general Engravers use, and for straight lines only or for lines of various patterns.

The Superintendent of the Lithographic press states that the Ruling Machine indicated for is required to be of the Superior description used by Engravers with arrangements to produce lines of various patterns, but with the addition of adapting the ordinary planing screw of a size suitable to the Machine to substitute the etching needle or pen ordinarily used by Engravers at times when Lithographic work is required to be executed but if the above arrangement is impracticable, the Superintendent requests that the Home-ing screw arrangement may be omitted, and the Ruling Machine with the necessary apparatus to produce lines of various patterns be supplied.

I respectfully solicit that the above information

information may be forwarded to the Home Government
as requested.

I have the honor to be

Sir

Your Most Obedt. Servant
