*Proceedings of the Madras Government, Public Works Department,
27th October 1870.*

No. 395. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Camp at Samalcottah, 5th October 1870, No. A:—

I HAVE the honour to report that, in company with the Range Officer, I this day examined the old Talook Cutcherry at Peddapoor, for the repairs of which Mr. Hannan has just prepared an estimate for Rupees 839.

2. The old building is in a very dilapidated condition, and quite unfit to keep any valuable records in; but the repairs must be executed, though the building is hardly worth the outlay, as the current work of the talook must be carried on, and I will make the necessary allotment of funds on my return to head-quarters.

3. An estimate, amounting to Rupees 22,560, for a new Cutcherry at this station was sanctioned by Government in G. O. of the 2nd July 1869, No. 2,147, and an expenditure of Rupees 6,953 has been incurred up to date. The new building has been raised up to basement; the doors and windows are ready, and also timber for the roofing; but under the orders stopping these works, no further progress has been made. My object in now referring the matter is to request permission to get on with the work, as it will take us two years to finish this, and a large annual outlay will have to be incurred to keep the old Cutcherry together, a good deal of which might be saved by constructing the new building as soon as possible.

No. 396. ORDER THEREON, 27th October 1870, No. 2,562.

CIVIL WORKS, No. 41.

THE Government regret that, in the present state of the Public Works assignment, they are unable to accord the permission applied for in this letter.

No. 1

Office of Superintending
Engineer 1st Division
Camp San Luis Arriba -
5th October 1870.

From,

The Superintending Engineer
1st Division

To,
Colonel Charles A. M. B. C.
Secretary to Government
Department Public Works.

Sir,

I have the honor to report
that in Company with the Range Officer
I this day examined the old Salage
Catching at Pecos for the repairs
of which Mr. Hannan has just prepared
an estimate for \$829.00.

2 The old Building is in a very
dilapidated Condition and quite
unfit to keep any valuable records
in, but the repairs must be executed
tho' the Building is hardly worth the
outlay, as the current work of the
Salage must be carried on and I
will make the necessary allotment
of funds on my return to St. Louis.

3 An estimate amounting to \$22500,
for a new Catching at this station
was sanctioned by Government
in

in G.O. of the 2^d July 1869 No 2847
 and an expenditure of Rs 6953 has
 been incurred upto date. The
 New Building has been raised
 upto basement, the doors and
 windows are ready and also
 timber for the roofing - but under
 the orders stopping these works
 no further progress has been
 made. My object in now referring
 the matter, is to request permission
 to get on with the work as it will
 take ^{us} 2 years to finish this
 and a large Annual outlay will
 have to be incurred to keep the
 old Cutchery together, a good deal
 of which might be saved by
 constructing the new Building as
 soon as possible.

I have the honor to be
 Sir
 Your Most Obedt Servt
