*Proceedings of the Madras Government, Public Works Department,
28th October 1870.*

No. 417. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Camp at Ellore, 17th September 1870, No. 82:—

I HAVE the honour to observe that I cannot supply any funds for the construction of the tunnel sanctioned in G. O., No. 2,173, of 9th September 1870.

2. I have not been supplied with a copy of Order No. 1,327, 26th August, in the Revenue Department, and therefore cannot understand why it should be charged to Imperial funds, unless the Government have overlooked the word "ruined" as applied to the tank.

3. The stream flows in its natural course now across a road so purely village that I doubted whether the inhabitants had any claim to even assistance from local funds.

4. The construction of this tunnel from Imperial funds would afford a precedent for claiming the construction of bridges over the surplus channels of every tank.

No. 418. ORDER THEREON, 28th October 1870, No. 2,573.

IRRIGATION, No. 27.

COMMUNICATED to the Revenue Department with a view to the question of the incidence of the charge for the construction of a tunnel over the surplus channel of the ruined Balsupaud tank being reconsidered with reference to Proceedings in that Department, No. 1,327, dated 26th August 1870.
