*Proceedings of the Madras Government, Public Works Department,
2nd November 1870.*

No. 32. Read the following letter from the Special Executive Engineer, Wynaad, to the Secretary to Government, Public Works Department, dated Vythery, 25th October 1870, No. 688:—

SEEING entered in the list of Unanswered References G. O., No. 813, dated 18th March 1870, I have the honour to observe that the reason for its omission is due to my considering my letter, No. 99, of 14th February 1870, as a reply in anticipation; but as it does not appear to be so taken, I beg to report that I am unable to see how any further reduction can be made in the establishment without impairing its efficiency, and causing detriment to the public service. Sickness, so prevalent here, generally keeps several members of the establishment ineffective, and seldom allows the services of all to be available; to reduce the number still further would lead at times to the entire stoppage of office work, except such as the Range Officers themselves could perform.

No. 33. ORDER THEREON, 2nd November 1870, No. 2,616.
