Dated 10 — 1 1871.

Not to be folded or roughly handled

Read the following papers:—

No. 120. Endorsement of the Revenue Department, dated 12th December 1870.

Proceedings of the Board of Revenue, dated 10th December 1870.

From the Acting Collector of Chingleput, to the Acting Secretary to the Board of Revenue, dated Sydapet, 8th December 1870, No. 526.

WITH reference to the Order of Government, dated the 15th November 1870, No. 82, Revenue Department, I have the honour to forward three Statements (A, B, and C,) containing the particulars of information required by Government in their Order of the 14th idem, No. 2,720, in the Public Works Department.

2. It will be seen from Statement A. that the total extent of land for which compensation has already been settled and paid up to date in connection with the Madras Water Works Project is Acres 205 Guntahs 35 Annas 2, and that the amount disbursed on account of compensation to the landowners is Rupees 10,641-7-8.

3. The next Statement B. and its enclosure show that the extent of land for which compensation has yet to be paid is Acres 2,083-19-10, bearing an assessment of Rupees 3,703. Of the above extent compensation has already been settled for Acres 27-18-5, the amount to be paid to the owners, including interest, etc., being Rupees 819-5-1.

4. The Tahsildar estimates the amount required for compensating the owners of the remaining land (Acres 2,056-1-5) at Rupees 83,974-12-8, being on an average Rupees 41 per acre. Judging from the details of the statement of valuation furnished by the Tahsildar, the above amount may be assumed to be as much as is likely to be required. To the above amount must be added Rupees 9,497, being the probable amount of compensation to be paid to certain Shrotriemdars on account of the loss of their melwaram share from lands taken up in their respective villages.

5. Most of the lands contained in this statement are within the proposed high water line of the Red Hills and Sholaveram Tanks, and are either already submerged or likely to be so.

6. Statement C. shows the compensation already paid for houses, wells, trees, crops, etc., amounting in the aggregate to Rupees 8,391-2-10. It also shows that the probable amount which will still be required on account of similar items is Rupees 11,553-14-11. Thus it will be seen that the total amount which will have to be provided on account of compensation for lands, houses, trees, etc., is Rupees 1,05,845-9-0.

7. I request that early orders may be obtained for placing at my disposal a sum of Rupees 20,000 at least, to adjust some of the pressing claims.

8. The statements of valuation for all the lands within the high water line of the Red Hills Tank and for those taken up for the delivery channel have already been received, and the claims are being enquired into and disposed of.

9. In his letter dated the 31st October 1870, No. 3,106, the Superintending Engineer states that a sum of Rupees 40,071-6-6 has already been paid for lands taken up in connection with the project. The above amount, I presume, includes sums paid by the officers of the Public Works Department themselves for lands and buildings taken up for the project without any reference to the Collector.

SUBMITTED to Government, with reference to Government Order 15th November 1870, No. 82.

(True Copy and Extract.)

No. 121. Endorsement of the Revenue Department, dated 15th December 1870.

Proceedings of the Board of Revenue, dated 14th December 1870.

From the Collector of Madras, to the Acting Secretary to the Board of Revenue, dated Madras, 12th December 1870, No. 82.

I HAVE the honour to submit the statement called for in Government Order 15th November 1870, No. 82, showing particulars of the lands taken up for the Madras Water Supply Project, and the probable amount of compensation to be paid in future.

SUBMITTED to Government in continuation of Board's Proceedings, 10th December 1870, and with reference to Government Order 15th November 1870, No. 82.

(True Copy and Extract.)
(Signed) J. GROSE,
Acting Secretary.

No. 122. ORDER THEREON, 10th January 1871, No. 60.

IRRIGATION, No. 6.

THE original and revised estimates for the Madras Water Supply Project provide Rupees 83,140 for compensation for land. It appears from the statements submitted by the Collectors of Chingleput and Madras with their letters above recorded that the probable outlay on this account will be Rupees 1,54,878-3-6. If to this sum disbursements by the Public Works Department, aggregating Rupees 21,038-12-0, be added, the estimate for compensation will be increased to Rupees 1,75,916-15-6 as follows, showing an excess of Rupees 92,777 over the amount included in the estimate for the project:—

			RS.	A.	P.

No. 526.

From W. J. Blair Esqr.
Ag Collector & Chingleput.

To J. Grose Esqr.
Ag Secretary to the
Board of Revenue.

Sir.

With reference to the Order of Government dated the 15th November 1870 No. 82, Revenue Deptt., I have the honor to forward three statements containing the particulars of information required by Government in their order of the 14th Idem No. 2720 in the Public Works Deptt.

A.B.C.

2. It will be seen from Statement A that the total extent of land for which Compensation has already been settled and paid up to date in connection with the Madras Water works Project is acres 205, Guntahs 35, Annas 2, and that the Amount disbursed on account of Compensation to the landowners is Rs 10,641-7-8

The

3. The next Statement B and its enclosure show that the extent of land for which compensation has yet to be paid is acres 2083-19-10, bearing an assessment of Rs 3,703. Of the above extent compensation has already been settled for acres 27-18-5, the amount to be paid to the owners including interest &c being Rs 819-6-1.

4. The Tahsildar estimates the amount required for compensating the owners of the remaining land (acres 205-6-1-5) at Rs 83,974-12-8 being on an average Rs 41 per acre. Judging from the details of the Statement of valuation furnished by the Tahsildar, the above amount may be assumed to be as much as is likely to be required. To the above amount must be added Rs 9,497, being the probable amount of compensation to be paid to certain shroffs-friendars on account of the loss of their melvaram share from lands taken up in their respective villages.

5. Most of the lands contained in this Statement are within the proposed high water line of the Red Hills and Sholaveram tanks and are either already submerged or likely to be so.

6. Statement C shows the compensation already paid for houses, wells, trees, crops &c amounting in the aggregate to Rs 8391-2-10. It also shows that the probable amount which will still be required on account of similar items is Rs 11,553-14-11. Thus it will be seen that the total amount which will have to be provided on account of compensation for lands, houses, trees &c is Rs 1,05,845-9-0.

7. I request that early orders may be obtained for placing at my disposal a sum of Rs 20,000 at least to adjust some of the pressing claims.

8. The Statements of valuation for all the lands within the high water line of the Red Hills tank and for those taken up for the delivery channel have already been received and the claims are being enquired into and disposed of.

9. In his letter dated the 31st October 1870 No 3106, the Superintending Engineer states that a sum of Rs 40,071-6-6 has already been paid for lands taken up in connection with

with the Project. The above amount, I presume, includes sums paid by the Officers of the Public Works Deptt. themselves for lands and buildings taken up for the project without any reference to the Collector.
