131-32.33.

Dated 10-1-1871.

Not to be folded or roughly handled

No. 131. Read the following letter from the Acting Superintending Engineer, 5th Division, to the Secretary to Government, Public Works Department, dated Cuddalore, 25th November 1870, No. 184 :—

I HAVE the honour to bring to the notice of Government that the anicut across the Manimoothanuddy river at Mahmatoor was completed about the latter end of last month, and up to date the greater portion of the main canal and the branches to the Puraloor, Sathagudal, Comungalam, and Theravaloor tanks are also in fit condition to carry the supply to the above-said tanks.

2. Such being the case, and as the Executive Engineer No. 4 Range had received several applications from the ryots praying that the head-sluice at the anicut might be opened and the water let down the channel to supply their tanks, he accordingly proceeded to the spot on the 19th instant, and, after carefully inspecting the channel and head-works, opened the shutters in the centre vent of the head-sluice; the water was then running over the crest of the anicut one foot in depth, and before leaving the place he reports that the main channel was running at a depth of six feet and drawing well. The four tanks were filled in the space of three days, and the head-sluice was again closed, the tanks having received each three months' supply.

3. As the anicut is now in operation, and as it is of great importance that the necessary establishment be at once sanctioned for regulating the distribution of water, I beg to request that Government will be pleased to sanction the conservancy establishment for the Mahmatoor anicut noted in the margin. The Overseer will have charge also of the Katoomyloor anicut now in progress, which is situated about eight miles above the Mahmatoor anicut.

ESTABLISHMENT, No. 15.

SIR,—The anicut at Mahmatoor across the Manimoothanuddy river in the South Arcot District and a great portion of its main and branch channels, the construction of which was undertaken on an estimate of Rupees 55,800 sanctioned by the Madras Government in November 1868, having been completed and brought into operation, the Officer in charge of the 5th Division in which that District is included, has applied for the entertainment of the conservancy establishment marginally noted at a monthly cost of Rupees 42, and under the circumstances represented by that Officer, His Excellency the Governor in Council has authorized its employment in anticipation of the sanction of the Government of India, which I am now directed to request may be granted.
