## *Proceedings of the Madras Government, Public Works Department, 14th January* 1871.

No. 219. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Camp at Mundigary, Adony Talook, Bellary, the 10th December 1870, No. 1,862:—

I HAVE the honour, with reference to G. O., No. 302, dated 25th January last, to forward, for the information of Government, the enclosed agreement and penalty bond, and request to know if service under an engagement of the above nature would be held to count towards pension.

2. The orders under which the above and similar agreements were entered upon appear to be those given at pages 95 and 96 of the Circular Order Book.

3. On referring to some of the service registers I find the apprentice service entered in three cases, but in how many more this occurs I have no further record from which such can be traced, and if Government will therefore definitely dispose of this question, steps will be taken to communicate the same to all the Range Officers.

4. I may here observe that, under the Uncovenanted Service Revised Rules for leave and pension, service is admissible only from the age of 22; assuming therefore that the entrance age of most, if not of all the apprentices, must have been under this, the presumption is that under this circumstance claims to pupilage service would be untenable when the time for reckoning service for pension comes round.
