*Proceedings of the Madras Government, Public Works Department,
22nd April 1871.*

No. 345. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Chittivalsa, 7th March 1871, No. P. :—

I HAVE the honour to request you will be good enough to submit this application for Lieutenant A. Dorward, R. E., being attached to this division as an Assistant Engineer in the Godavery District.

2. Captain Hasted has now the charge of both the Eastern and Central Deltas, together with the workshops and quarries, besides all the head-works of the anicuts and the river embankment up to Polaveram, as well as the surveys, etc., lately ordered to be prepared to note the condition of the river bed after each monsoon season; whenever I am obliged to leave head quarters on tours of inspection, I have to ask that officer to attend, as far as he can, to my own office duties; he has therefore far more work to do than can well be attended to with the assistance he now has under him.

3. Lieutenant A. Dorward is at present attached to the Sappers, but is very anxious to join the department in the Irrigation Department, and as the completion projects for the deltas will, I trust, soon be in hand, I have taken upon myself to submit an application on his behalf in the hope the Government will be pleased to apply for his services and afford him an opportunity of becoming practically acquainted with one of the most important works in India.
