*Proceedings of the Madras Government, Public Works Department,
28th April 1871.*

No. 466.

Dated 28th April 1871, No 1,194.

ESTABLISHMENT, No. 45.

As, in the present advanced state of the works of the Madras Irrigation and Canal Company, the duties devolving on

the Consulting Engineer for that Company are no longer of such an onerous nature as to require for their performance the exclusive services of an officer, the Government resolve to take the opportunity of Colonel Cappendale's transfer to the Secretariat to place the duties hitherto pertaining to his late appointment under the charge of the Chief Engineer for Irrigation and Joint-Secretary to Government.

2. As this direct supervision of the operations of the Company will throw a very considerable increase of business on the Public Works Secretariat, the Government are of opinion that, with a view to meeting this, and to providing for the contingency of the Chief Engineer for Irrigation being frequently absent on tours of inspection, it will be necessary to re-appoint an officer of some standing and experience to the post of Under Secretary in that Department, which, for economical and other reasons, has been allowed to remain in abeyance for most part of the time since the creation of the office of Joint-Secretary.

3 By these arrangements the saving desired by the Government of India and referred to in the letter from this Government under date the 23rd March 1871, No. 875, will be effected, not taking into account that which may be made by such a reduction of the establishment attached to the Consulting Engineer's Office as, under the circumstances, it may now be found possible to carry out

4. These Proceedings will be reported to the Government of India for approval.
