With reference to G. O., No. 677, dated 7th March 1871, and the correspondence noted marginally, I have the honour to inform you that the Officiating Director of Construction, (Telegraph

No. 3,960, dated 27th March 1871

Department,) has informed me that he does not require the telegraph wire now in store for the construction of the Great Southern of India Railway. I have therefore to request that application may be made to the Government of India for sanction to the removal of the material from Negapatam to Trichinopoly at an estimated cost of Rupees 2,150.

From the Agent of the Great Southern of India Railway, to the Acting Consulting Engineer for Railways, dated Negapatam, 27th March 1871, No. 3,960

I HAVE the honour to inform you, with reference to the second paragraph of G. O., No. 677, of the 7th instant, that no further communication has reached me regarding the wish of the Director General of Government Telegraphs to borrow the telegraph material now in this Company's Stores at Negapatam. I apprehend, therefore, as two months have nearly passed by since the application was made, that the Director General is not in a position to comply with my offer. The conveyance from the coast of this material requires now to be sanctioned

From the Officiating Director of Construction, to the Deputy Consulting Engineer for Railways, Madras, dated Calcutta, 15th April 1871, No. 71 C.

In answer to your No. 256, I have to reply that as our own wire has arrived, we are not at present in want of any from the Railway, and I have therefore the honour to request that they will make their own arrangements as to its safe keeping
