*Proceedings of the Madras Government, Public Works Department,
16th May 1871.*

No. 306. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Camp at Cowlaram, 26th April 1871, No. 9:—

I HAVE the honour to submit, for the sanction of Government, an estimate for putting into thorough order the boat used by the Executive Engineer, Eastern Delta, Kistna District. This boat was purchased for Rupees 250 on the authority conveyed in G. O., No. 374, 5th February 1869. It was carefully examined before I agreed to the purchase, and reported to be in good order. The accommodation afforded is that of a second-class boat estimated at Rupees 800, *vide* G. O., No. 3,460, 5th November 1868. It has been since found that the boat leaks badly and the rain comes in through the roof and sides in wet weather, and the floor is decaying. Captain Smalley reports that the bottom planking wants thorough renewal; the accompanying estimate has been prepared for putting the boat in a sound condition, and if this amount is added to the original price its value would be still less than the sanctioned sum for the second-class boat by Rupees 300. I, therefore, request the early sanction of Government to the present estimate, and permission to debit the charge to Tools and Plant New Supplies, as the current year's allotment under this head is hardly sufficient to meet the most urgent demands of the district, it being only Rupees 390 against Rupees 3,500 allotted last year. I beg that some arrangements may be made for the transfer of Rupees 250 from other sources, so that the repairs needed to the boat in question may be completed before the canals are re-opened.

No. 307. ORDER THEREON, 16th May 1871, No. 1,356.

CIVIL WORKS, No. 31.

UNDER the circumstances explained in this letter, the Government sanction the estimate of Rupees 250 for repairing the boat employed on the Eastern Delta of the Kistna District.

2. The Superintending Engineer will observe from G. O., No. 1,166, of the 25th April 1871, that the amount allotted for expenditure on Tools and Plant in the Kistna District now stands at Rupees 1,150 against Rupees 390 assigned in the orders accompanying the Budget which was issued on the 8th February 1871. Colonel Moberly will probably therefore be able to provide from this source the requisite funds for carrying out the repairs.

26th April 1871

From Colonel F. J. Moberly R.E.
Superintending Engineer 2nd Div.
To Colonel C. A. M. R.E.

Secretary to Government
Department Public Works

Enclosure
1 Estimate
Rs 250.

Sir

I have the honor to submit for the
sanction of Government an Estimate for putting
into thorough order, the boat used by the Executive
Engineers Eastern Delta, Krishna District.
This boat was purchased for Rs 250 on the
authority conveyed in G. O. No 374. 5th February 1869.
It was carefully examined before I agreed to
the purchase and reported to be in good order.
The accommodation afforded is that of a 2nd
class boat estimated as Rs 800 Vide G. O. No 3460
5th November 1868. It has been since found that
the boat leaks badly and the rain comes in
through the roof and sides in wet weather and
the floor is decaying. Captain Smalley reports
that the bottom planking wants thorough
renewal. The accompanying Estimate has been
prepared for putting the boat in a sound condition,
and if this amount is added to the original
price, its value would be still less than the
Sanctioned

Sanctioned sum for the 2^d class boat by Rs 300.
I therefore request the early sanction of
Government to the present Estimate & permission
to debit the Charge to Tools and Plant & new
supplies. As the current year's allotment under
this head is hardly sufficient to meet the most
urgent demands of the District it being only
Rs 390 against Rs 3500 allotted last year.
I beg that some arrangements may be made for
the transfer of Rs 250 from other sources so that
the repairs needed to the boat in question may
be completed before the Canals are reopened.

I have the honor to be
Sir

Your most Obedt Servant
