*Proceedings of the Madras Government, Public Works Department,
19th May 1871.*

No. 351. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 4th May 1871, No. 189 :—

I HAVE the honour to report, for the information of Government, that the work on the European Female Hospital at this station has been ordered to be proceeded with in anticipation of funds being provided for this work, which is included in the statement of Incomplete Works submitted on the 19th April 1871.

2. The work will be completed in ten or twelve days; the balance of the estimate, for which an allotment is required during the current official year, is Rupees 1,937.

No. 352. ORDER THEREON, 19th May 1871, No. 1,381.

MILITARY WORKS, No. 10.

THE proceeding reported in this letter is quite opposed to the orders which were communicated only so recently as on the 3rd and 4th ultimo. The funds at the disposal of Government at the commencement of an official year under the various Budget heads of service are so very limited as compared with the demands, that if works not coming within the intentions of paragraph 90, Section II, of the Manual of Public Works Accounts, are to be proceeded with at the option of the Superintending Engineers in anticipation of allotments being made by the Government the greatest embarrassment must necessarily follow. His Excellency the Governor in Council resolves to draw the special attention of Superintending Engineers to the subject.

2. As the European Female Hospital at Bellary will probably be completed by the time these orders are issued, the Government resolve to allot the sum of Rupees 1,937, applied for by Lieutenant-Colonel Palmer, from the Reserve under "Military."
