*Proceedings of the Madras Government, Public Works Department,
23rd May 1871.*

No. 422. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Public Works Department, dated Camp at Cowlaram, 26th April 1871, No. 8:—

I HAVE the honour to inform you that Major Clay, the Officer in charge of the Pennair Anicut Works, has applied to me for Rupees 700 for the repairs of cranes, trucks, etc., connected with the Pennair Anicut Works. Six trucks and three cranes were repaired from the last year's additional allotment, and six more trucks and two cranes require urgent repairs to fit them to convey stone from the quarry. The sum allotted in the current year's Budget for tools and plant repairs, namely, Rupees 300, is scarcely sufficient to meet the range ordinary requirements. I therefore request the sanction of Government for the additional sum of Rupees 700 now applied for as a special grant, which is necessary owing to the damage sustained to the anicut in October last. If this cannot be complied with, I beg

G. O., No. 544, 24th February 1871. . . that I may be allowed to debit the charge to the Anicut Repair Estimate as a temporary measure, or till funds from the proper source can be made available.

No. 423. ORDER THEREON, 23rd May 1871, No. 1,419.

ACCOUNT, No. 34.

As there are no funds at the disposal of Government under "Tools and Plant," Ordinary, the sanction of the Government of India will be requested to the transfer of Rupees 700 applied for in this letter from the Reserve under "Agricultural."
