		Mis.
Dated	2-6-18	1871.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
2nd June 1871.*

No. 46. Read the following Endorsement of the Officiating Secretary to Government, Military Department, dated Fort St. George, 29th May 1871:—

From the Officiating Quarter Master General, to the Officiating Secretary to Government, Military Department, dated Fort St. George, 29th May 1871, No. 3,563.

GOVERNMENT in their Order No. 3,040, of 15th December 1870, Public Works Department, sanctioned an estimate for Rupees 1,400 for reroofing the hospital of the 2nd Regiment Native Infantry at Vizagapatam.

2. A letter from the Superintending Engineer, 1st Division, to the Acting Inspector-General, Indian Medical Department, by whom it was transferred to this department on 9th instant, reported that on unroofing the building the walls were found cracked and not strong enough to bear a new roof, and recommended a house should be hired as a present arrangement.

3. Orders were therefore telegraphed to the Officer Commanding Northern District to authorize the Executive Engineer to hire a suitable building under the provisions of G. O. C. C., No. 49, dated 2nd May 1870.

4. I have now the honour to report that the Officer Commanding Northern District telegraphs, in reply, that no house is now available for hire for a hospital for the 2nd Regiment, and that, as a temporary arrangement, the hospital is about to be placed in a building not yet made over by the Executive Engineer to the Civil Authorities. Under these circumstances I am instructed by His Excellency the Commander-in-Chief to request that Government may be pleased to authorize

Docket from Inspector-General, Indian Medical Department, No. 2,171, dated 9th May 1871, with enclosure.

Chief J. H. Forward M.B.E.
Chief Engineer Vizagapatam
Major J. H. Fischer M.B.E.
Superintending Engineer
1st Division

In forwarding a Copy of the telegram regarding the Station Infantry Hospital at Vizagapatam, which I this morning despatched to your address, I have the honor to state that the condition of the main walls of the Hospital is now such as to render their reconstruction necessary before putting on a new roof, you will remember that the failure of the present Collar Beam Roof, had thrust the walls outwards very considerably, although, at the time of your inspection, cracks had only appeared in one end of the building. Horizontal cracks have since spread out at the base of the walls, showing that should the thrust continue, they will eventually topple over outwards. As this accident appears more imminent day by day, I have ventured to commence unroofing the main room in anticipation of your sanction.

2. It would not be safe to put a new roof

in their walls; nearly the whole of the Hospital, therefore, will have to be rebuilt, from the level of the Basement. And before sending in an Estimate for this, I will await your instructions as to whether you consider it advisable to use the old foundations, and so limit ourselves down to the old plan, or whether you would wish an Estimate for an entirely new Building on a better plan.

3. In the mean time, I have to request that you will obtain the permission of Government to hire a building for the use of the sick, as they cannot remain in tents during the wet weather.

I have &c. &c.
Signed J. H. Forward M.D.
Asst. Engineer Vizagapatam.

Sir. In forwarding herewith copy of
Lieut. Dorward's Report on the condition of the
Station Infantry Hospital at Vizagapatam,
I have the honor to inform you that when I ins-
pected the building last month I found the walls
of the building were very much cracked, and in a
very dangerous state.

As the Building of such dimensions
in my opinion is quite unsuited for a Hospital,
in its present condition, I would recommend
Lieut. Dorward's proposal to reconstruct the
whole building from the level of the Basement
that
being carried out pending which, I request per-
mission may be obtained from Government to
hire a building for the use of the sick patients.

I have the honor to be

To
Hon. Quartermaster General J. D. Min
Commanding Northern District

To
The Quartermaster General
Fort St. George.

Sir,
With reference to your Telegram of the 11th
Instant, I have the honor to report that the sick
of the 2nd Regiment A. I. were placed under Tents
in consequence of the re-roofing of the Hospital
injured by late cyclone. In the opinion of the
Executive Engineer after it had been re-roofed the
walls were found not strong enough to support a new
roof and the original estimate required revision
with a view to much more extensive repairs being
estimated for before any further work should
be done.

2. For the last four months the sick have
been in Tents and as the Monsoon shortly
commences, the Executive Engineer requested
the

Superintending Engineer 1st Division to obtain
the permission of Government to hire a
building for the use of the sick, (interim)
the Commandant 2^d Regt. A.I. brought
to my notice the state of the present Hospital
and the stoppage of the work. On receipt
of which I directed the Engineer Officer to
urge the Superintending Engineer to ask for
instructions from Government by Telegram.

3. On the receipt of your Telegram above
mentioned I directed the Executive Engineer
to seek a building for accommodation of
the sick and to report the plan of the build-
ing and its efficiency for the purpose which
when received will be forwarded.

I have the honor to be
Sir,
Your Most Obedt. Servant

Quarter Master General's Office
Fort St. George 29th May 1871.

From
Colonel Arthur Hewitt
Offg Quarter Master General
To
Colonel A.C. Silver
Offg Secretary to Government
Military Department

Government in their Order No 3040
of 15th December 1870 P.W.D. sanctioned an
estimate for Rs 1400 for re-roofing the Hospital
of the 2nd Regiment B. I. at Bangalore.

A letter from the Superintending
Engineer 1st Division to the Acting Inspector
General Indian Medical Department by whom
it was transferred to the Department on 9th
Instant, reported that on unroofing the building
the walls were found cracked and not strong
enough to bear a new roof, and recommended a
House should be hired as a present arrange-
ment.

Orders.

3. Orders were therefore telegraphed to Officer Commanding Northern District to authorize the Executive Engineer to hire a suitable building under the provisions of G.O.C.C. No 49 dated 2d May 1871.

4. I have now the honor to report that the Officer Commanding Northern District of telegraphs in reply that no House is now available for hire for a Hospital for the 2d Regiment and that as a temporary arrangement the Hospital is about to be placed in a building not yet made over by the Executive Engineer to the Civil Authorities. Under these circumstances I am instructed by His Excellency the Commander in Chief to request that Government may be pleased to authorize immediate steps being taken in the Public Works Department for the reconstruction of the Native Infantry Hospital at Vizagapatam at as early a date as possible.
