No. 61. ORDER THEREON, 3rd June 1871, No. 1,512.

ESTABLISHMENT, No. 8.

WITH his endorsement of the 2nd December 1870, No. 1,878, the Controller submitted to Government a letter from the Accountant-General of the Public Works Department in which that officer inquired into the state of the registers of public buildings required to be maintained under the rules contained in the sections of the Government of India Code which are quoted in the margin.

Section I. of Chapter IX., paragraph 6.
„ I. of „ X., „ 8.

2. In forwarding the correspondence to the Superintending Engineers for report as to whether any such record existed in their own or in the Range Officers subordinate to them, the Government remarked that the portions of the Code of the Government of India referred to did not appear to have been made applicable to this Presidency.

3. The letters read at the head of these Proceedings are the replies of the Superintending Engineers to the references made to them, from which the Government gather that no registers such as those referred to are maintained in any of the ranges or charges of this Presidency, but that complete lists of all public buildings have recently been required by the Controller of Public Works Accounts to be submitted by the Executive Officers in whose charges such buildings are situated.

No. 3923
From

The Acting Superintending Engineer
1st Division

To

The Secretary to Government D. P. W.
Madras

SIR,

Referring to G.O. 1027 dated
8th January 1871, I have the honor to report that,
a Register of all the Public Buildings within
this Division, has not been maintained in this
Office, but some record of these is kept by
the Range Officers, so as to comply with the re-
quisition from the Controller of Public Accounts.
I have the honor to be,
Sir,

Very respectfully,
Yours

Submitted (with N.O.)
for the Superintending Engineer, 1st Division

Proceedings of the Madras Government, Public Works Department,
3rd June 1871.

4. The Government are however of opinion that a uniform system of registration of such property should be adopted in every executive range, and the Superintending Engineers will accordingly instruct the officers under them to compile the records in future in the manner laid down in the Government of India Code, Chapter IX., Section I, paragraph 6, and Chapter X., Section I, paragraph 8.
(True Extract.)

Colonel, R. E.,
Secretary to Government.

To the Controller of Public Works Accounts.
To Superintending Engineers.

Sir
In reply to G.O. No. 27. 6th
January 1871. I have the honor to report
that the Range Officers have lately
furnished the Controller P.W. Accounts
with lists of all the public buildings
in their ranges but I believe they
have no survey of the boundaries
of the land occupied by those
not within a Military Cantonment.

I have the honor to be

Sir,

Sir,
I have the honor to report,
with reference to G. O. N. 27 of 6th Jan'y.
last, that no Registers of Public Buildings
exist either in this or in Range Offices
as no instructions for the maintenance
of such Registers appear to have ever
been issued by Government.

2. I would however here observe that this Office is in possession of the Annual Survey Reports of all Public Buildings submitted by Range Officers in the accompanying form, with reference to late Chief Engineer's Circular No. CXXXVII dated 3rd November 1858 of which a copy is enclosed for information.

No CXXXVII of 1858/59
Chief Engineer's Circular

The Government of India having directed that Periodical Surveys of Public Works and Buildings should be made by Professional Officers, the following Rules on the subject are circulated for the information and guidance of all Officers of the Department.

Officers of the Public Works Department will be held strictly responsible for the condition of all the Public Works and Buildings of every description within their executive charge. Subordinate Agents of the Department will be directly responsible to the Executive or other Officer in charge of the Range. The Executive Officer will be responsible to the District Engineer and the latter to the Superintending Engineer of the Circle.

It is not necessary that the examination of Public Works should be made in all cases by the District or Executive Engineer. The duty may frequently be entrusted to an Assistant Engineer or to an intelligent subordinate, but the superior Officers are expected to take measures to ensure the duty being performed efficiently. As a general rule, it is required that the most important works shall be examined by the higher Officers of the Department, and those of less moment by properly qualified subordinates.

The inspection should be made generally once a year, previous to the usual season for repairs. District Engineers will, however, be at liberty to order a more frequent inspection of the works, or buildings, whenever from particular circumstances, they may consider it necessary for the security of the building.

Care should be taken that the examination

of Public Works be held at such timely opportunities as to be least expensive to the State and productive of the least inconvenience to the Public Service.

V In all cases where repairs may be considered to be necessary, Inspecting Officers will be at liberty to forward Estimates for execution under the general rules of the Department.

VI Officers who make surveys required by these Rules, will furnish reports thereof through their immediate superiors, to the District Engineer, who at the end of each year, report for the information of the Central Office to what extent the Rules now laid down have been conformed to, and with what results.

VII These rules apply only to finished works, whether belonging to the Irrigation Commission, or Building Departments and not to those in progress under the superintendence of project small Officers, which will continue to be subject to the same rules and regulations now in force.

MEMORANDUM.

No. 464.

HAVING been called upon by the Accountant-General of the Public Works Department to furnish a list of buildings occupied free of rent by Superintendents of Jails, Postmasters, and other Officials, in the Madras Presidency, the Controller of Public Works Accounts has the honour to request that Range Officers will lose no time in submitting a Statement, in the accompanying form, to enable this Office not only to comply with the requisition above referred to, but to maintain a complete record of all public buildings in the Presidency, and of the uses to which they are applied.

S. BROCK,

Controller of Public Works Accounts.

OFFICE OF THE CONTROLLER OF
PUBLIC WORKS ACCOUNTS,
Madras, 10th June 1870.

Sir, With reference to G. O. N^o 27 dated
6th January 1871, and your reminder N^o 26
dated 27th April last, I have now the honor
to report that no Register of Public Buildings,
Civil or Military, is maintained in any of
the Ranges in this Division except in the
Presidency, and in Chittoor and Vellore
Ranges North Arcot District, where a Register
of such Public Buildings only as are
available for rent is kept up by the Exec-
utive Officers concerned.

I have however instructed the
several Executive Officers in my Division
to open out and maintain a complete
Register of all Public Buildings within
their respective jurisdiction.

Sir,
In reference to G. O. No. 17 of the 6th January
1871, I have the honor to state, that no
Registers of Public Buildings are kept up
in this Office, nor were they maintained in
the late District Engineers' Offices of South
Arcot & Salem.

It does not appear that any record of such
buildings exists in the Range Offices, nor
that the Range Officers were aware of the
rulings of the Government of India quoted
in the G. O.
