MADRAS RECORD OFFICE.**Government of Madras.***Public Works* **DEPARTMENT.**

G.O. No. 1635	Press Mis.
297-98	
Dated 17-6-	1871.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
17th June 1871.*

No. 297. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 15th May 1871, No. 592:—

I HAVE the honour to submit, for sanction of Government, a plan and an estimate, amounting to Rupees 2,940, for putting up a lightning conductor at the north-east angle of the principal building, and one at each end of Ban-

1 Plan.
1 Abstract Estimate.
1 Specification.

quetting Hall, at the Government House, Madras.

2. A specification, which gives the details of the lightning conductors, also accompanies the estimate.

3. This project has been prepared by the Executive Engineer at the request of the Private Secretary to the Right Honourable the Governor, and I therefore request that funds may be granted for the execution of works from any source at the disposal of Government.

No. 298. ORDER THEREON, 17th June 1871, No. 1,635.

CIVIL WORKS, No. 14.

THE Government sanction the estimate submitted with this letter, amounting to Rupees 2,940, for the erection of lightning conductors at the Government House and Banquetting Hall, Madras, and resolve to allot the requisite funds for the execution of the work from the Reserve under Civil Buildings in the Provincial Budget.

(True Extract.)

Colonel, R.E.,
Secretary to Government.

To the Superintending Engineer, 4th Division.
.. Controller of Public Works Accounts.

Erd. S. T. Augustin.

June 7th 1874

In reference to this
Estlin's remarks I
beg to explain that the
new principle of
lightning conductors,
& which is provided
for in this estimate, is
a continuous band
of copper all round
the building, and
one upright rod
above this is often
enough. In this
case of Lab. house
however two are

Along provided -
 one at the flagstaff
 & one at the west
 highest point in the
 roof - & the S. E.
 side be instructed
 to provide a third
 at a corner of the
 building nearest the
 sea.

J.

Secretary to the Right Honorable
the Governor, and I therefore request
that funds may be granted for the
execution of the works from any
source at the disposal of the
Government.

I have the honor to be
Sir
Your most obedient servant.

Wrotham Coll. R.E.
Supt. Engineer to Govt.

as per M.R. 25

Ch 29

12 p 35-17 "Sewerage"

Submitted for sanction
a plan submitted estimated
amounting to Rs 2940
for putting up a lightning
conductor at the North
East angle of the Municipal
Building, and one at each
end of the Banquetting Hall
at the Government House
Madrass.

Dated 15th May 1871
No. 1643
Sec. 3. Rs 2942.

To the Secretary
to Government

The Supr Engineer
4th Division
No. 22231.

Public Works Department
121635.
Proceedings of the Madras Government
Under date the 17th June 71.
Read the following

From The Supr Engineer } H.E. No. 5927/15th May 1871
1st Dn

I doubt the propriety
of this plan. one is likely to
little for Govt House if two
are required for the Banquetting
Hall. It would be better to do the House
thoroughly first what is intended
than that I fear the Banquetting Hall
till next year
if all cannot
be done properly now.
With the explanation I
affirm the plan.
The House should be
done first.

The Government
sanction the estimate
amounting to Rs 2940
for the erection of
lightning conductors at
the Government House
and Banquetting Hall,
Madras, and resolve to
allot the requisite funds
for the execution of the
work from the Reserve
under Civil Buildings
in the Provincial Budget.

The Supr Engr. 1st Dn
