Proceedings of the Madras Government, Public Works Department, 23rd June 1871.

No. 425. Read the following Endorsement of the Controller of Public Works Accounts, dated Madras, 13th June 1871, No. 701.—

From the Superintending Engineer, 5th Division, to the Controller of Public Works Accounts, dated Cuddalore, 10th June 1871, No 72.

With reference to G. O No. 106, of the 17th May 1871, passing orders on the Controller's Statement of Objectionable Items on the Accounts of the 5th Division for February 1871, I have the honour to report that the Executive Engineer, Oossoor Range, states that clearing the bushes on the bund of the Sangambasooram tank was considered emergent, because, until the bushes were cleared, the repairs required to the tank could not be carried out, and also that, if the repairs had not been carried out, it is not at all improbable that the bund would have breached by this time.

Submitted for the information of Government, with reference to paragraph 4 of their Proceedings No. 106, of the 17th May 1871, and in continuation of endorsement No. 522, dated the 25th May 1871, from this office

2. A reminder has been sent for the explanation required by Government in reference to the excess over the estimate for the "restoration* of the Serukalay ruined tank."

* Item No 1 of Statement of Objectionable Items for February 1871.

(Signed) S BROCK,
Controller of Public Works Accounts.

No. 426. Order thereon, 23rd June 1871, No. 1,697.

ACCOUNT, No. 38.

Under the explanation afforded in this letter the Controller of Public Works Accounts will be authorized to pass the outlay of Rupees 50-5-0 incurred on emergency, but the Government resolve to call the attention of the officer in charge of the Oossoor Range, through the Superintending Engineer, to the orders of the 7th March 1870, No 721-A, which require that when a work is necessarily undertaken without a specific assignment of funds immediate intimation of the fact should be given to the Controller.
