*Proceedings of the Madras Government, Public Works Department,
1st July 1871.*

No. 16. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 19th June 1871, No. 496 —

I HAVE the honour to forward, for the sanction of Government, the accompanying plan, report, and estimate, amounting to Rupees 2,400, for constructing three latrines—

1 For Native Infantry Guard.

1 For Native Cavalry standard Guard and gram-boiling shed employés.

1 For the numerous followers of the Cavalry Regiment at Bellary.

2. This estimate was prepared agreeably to call made for it in G. O , No. 225, dated 2nd January 1870, and has been approved of by His Excellency the Commander-in-Chief.

3. The grant under "Minor New Works, Military," for 1871-72 may be considered altogether insufficient, as it is quite impossible that the estimate (Rupees 2,400) for these three latrines can be met from a grant of Rupees 3,000 without seriously interfering with other Minor Works, and I must therefore leave the matter of providing funds in the hands of Government as the latrines are stated to be much required

4. I may add that the balance under "Minor New Works, Military," is very small.

No. 17. ORDER THEREON, 1st July 1871, No. 1,757.

MILITARY WORKS, No. 2.

THE Government approve of the estimate submitted with this letter amounting to Rupees 2,400 for the construction of latrines for the use of Native Regiments at Bellary, but the small balance of the Reserve under Military precludes their making any appropriation of funds during the current official year.
