*Proceedings of the Madras Government, Public Works Department,
5th July 1871.*

No. 56. Read the following letter from the General Superintendent of Public Works Workshops and Stores, to the Secretary to Government, Public Works Department, dated Chepauk, 24th June 1871, No. 598.—

With reference to G O., No 1,656, of 20th instant, I have the honour to state that the schedule of prices promised in G O , No. 832, of 21st March 1871, having to include various designs of bridges of a sufficiently economical construction as will admit of their being substituted for masonry bridges, the calculations necessary for this require time in their preparation, and as the whole of my office hours are fully taken up with the work of this department, I regret not being able to state when the schedule will be ready for approval of Government, but every endeavour on my part will and has been made to complete it as early as possible.

2. If the Acting Superintending Engineer, 7th Division, would let me know the dimensions of any bridges he may require the plans and estimates of same will be made in this office and sent to him as has been done before.—*Vide* G. O., No. 689 of 8th March 1871.
