Proceedings of the Madras Government, Public Works Department,
17th July 1871.

No. 285. Read the following letter from the Superintending Engineer, 3rd Division, to the Secretary to Government, Public Works Department, dated Bellary, 22nd June 1871, No. 525 :—

I HAVE the honour to submit, for the orders of Government, the enclosed two estimates for Chabootras or bathing platforms for the Native Cavalry and Native Infantry Hospitals at this station.

		Rs.	A.	P.
1.	Plan, report, and estimate for Chabootra or bathing platform for Native Infantry Hospital ...	580	0	0
2.	Do. do. do. do. for Native Cavalry Hospital	160	0	0

2. The idea of constructing such platforms originated with the Honourable R. S. Ellis, C.B., as a reference to paragraph 136 of his Report on Bellary will show, and I also beg to refer you to my memorandum, dated 24th July 1869, in which, for the reasons stated therein, I ask permission to omit the call made for the second estimate in the list submitted by the Military Department for works requiring estimates.

3. In returning this latter estimate, the Quarter Master General of the Army says,* "that the Commander-in-Chief "considers the plan of the Chabootra "with reservoir for the Hospital of a Native corps suitable for the purpose "contemplated; but considering the uncertainty of the water-supply at Bellary, "His Excellency is of opinion that at present no money should be spent in the "construction of such a work." Since then the estimate for a bathing platform (in lieu of wash-house entered in list printed with G. O., No. 225, dated 20th January 1870,) for the Cavalry Hospital was sent in, and in communicating† the approval of His Excellency the Commander-in-Chief to the same, the Quarter Master General informs "that with the small amount of reserve funds available, "this work is not of sufficient importance to be carried out now."

* Vide letter No. 4,144, dated 20th May 1868.

† *Vide* letter No. 3,506, dated 26th May 1871.

4. Small as is the amount of each estimate, I must say that I have no funds to spare under "Minor New Works, Military," to recommend the work being undertaken during the current official year; I therefore submit the estimate to Government, so as to have them removed from the undisposed file in my office.

5. I may add that the supply of water for filling the reservoirs will have to be obtained from wells in the neighbourhood, as the completion of the water-supply project will in no way affect the question of the construction of these Chabootras or bathing platforms.

No. 286. ORDER THEREON, 17th July 1871, No. 1,885.

MILITARY WORKS, No. 7.

As, in the opinion of His Excellency the Commander-in-Chief, bathing platforms for the Native Cavalry and Infantry Hospitals at Bellary are not works of such urgency as to warrant their being undertaken while the supply of water at that station is uncertain and the funds at the disposal of Government limited, His Excellency the Governor in

Proceedings of the Madras Government, Public Works Department, 17th July 1871.

Council resolves to postpone the consideration of the estimates submitted with this letter, and grants authority for the omission of the subject from the Superintending Engineer's Unanswered Reference Lists.

Enclosures. 6

Sir,

I have the honor to submit for the orders of Government the enclosed five estimates for Chabutras or bathing platforms for the Native Cavalry and Native Infantry Hospitals at this station.

2. The idea of constructing such platforms originated with the Honble R. S. Ellis C. B., as adverted to para. 136 of his report on Bellary will show, and I beg to refer you to my Memorandum dated 21st July 1869, in which, for the

Abstract Estimate amounting to Rupees ____
for ____

Received ____ 1870.
Division
Range

the reasons stated therein, I ask permission to omit the call made for the 2nd estimate in the list submitted by the Military Department for works requiring estimates.

3. In returning this latter estimate, the Quarter Master General of the Army says, "that the Commander-in-Chief considers the "Plans of the Chabootras with pe-"-culiar reference to the Hospitals of a "Native Corps suitable for the "purposes contemplated, but consi-"dering the uncertainty of the "water supply at Bellary, His "Excellency is of opinion that at "present no money should be "spent in the construction of such "a work." Since then the estimate for a bathing platform (in lieu of wash house entered in list printed with G.O. No. 225 dated 20th January 1870.) for the Cavalry Hospital was sent in, and

* Vide Letter No 4144 Dt 25 May 1871

and in communicating the approval of His Excellency the Commander-in-Chief to the same, the Quarter Master General informs "that with "the small amount of Reserve "funds available, this work is "not of sufficient importance "to be carried out now."

Small as is the amount of such estimate, I must say that I have no funds to spare under "Minor "New Works - Military" to recommend the work being undertaken during the current official year; I, therefore, submit the estimate to Government as to how it is to be disposed of, file in my office.

5. I may add that, the supply of water for filling the reservoirs will have to be obtained from wells in the neighbourhood, as the completion of the water-supply project will in no way affect the question of the construction of these Chabootras or bathing platforms.
