*Proceedings of the Madras Government, Public Works Department,
18th July 1871.*

No. 304. Read the following letter from the Acting Superintending Engineer, 7th Division, to the Secretary to Government, Public Works Department, dated Coimbatore, 28th June 1871, No. 62:—

If there is no likelihood of the early disposal of the lists of incomplete and other works for which funds have been applied for, I have the honour to request that funds may at least be allotted for the following item in my incomplete list dated 28th April 1871, as the Range Officer has undertaken the work on emergency, the months of April and May being those in which the work of deepening wells can only be carried out on the Malabar coast, and to have left it undone in those months would have been equivalent to deferring it for twelve months more to the great inconvenience of the troops:—

Deepening wells in the Lines of the 25th Regiment, Native Infantry, at Cannanore.—Estimate, Rupees 2,059, sanctioned in G. O., No. 2,005, of 20th August 1870; expenditure incurred in 1870-71, Rupees 549; amount required during 1871-72, Rupees 1,510.

2. I would beg to be informed as to the course to be adopted with reference to funds required for works under "Communications," hitherto Imperial, and whether the Local Fund Boards should be addressed on the subject, forwarding them extracts of the incomplete work and other lists already sent to Government. I make this reference as funds are urgently required for some incomplete works under this head.

No. 305. ORDER THEREON, 18th July 1871, No. 1,895.

MILITARY WORKS, No. 8.

THE balance of the reserve under "Military" being small, the Government are not in a position to provide the funds required to cover the outlay incurred, in anticipation of an allotment, on the work of "Deepening wells in the Lines of the 25th Regiment, Native Infantry," at Cannanore. Colonel Farewell should therefore arrange at an early date for the adjustment of the expenditure by re-appropriations of the funds at his disposal.

2. With reference to paragraph 2, the attention of the Superintending Engineer will be drawn to the rules circulated with G. O., No. 70, dated 10th July 1871.
