*Proceedings of the Madras Government, Public Works Department,
29th July 1871.*

No. 511. Read the following letter from the Acting Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Dowlaishweram, 10th July 1871, No. 1,172 :—

With reference to G. O., No. 1,742, dated 30th June 1871, I have the honour to submit, for the sanction of Government, a plan and estimate, amounting to Rupees 7,900, with specification, for constructing a Telegraph Office at Rajahmundry.

2. The plan and estimate, it will be seen from the accompanying copy of letter, have been, with some slight alterations, approved of by the Director General of Telegraphs. If these alterations are to be carried out, it will be necessary to make the rear part of the building the front, and *vice versa*. The position of the bath-rooms will have to be changed to avoid this.

From the Director General of Telegraphs in India, to the Superintending Engineer, 1st Division, Dowlaishweram, dated Simla, 21st June 1871, No. 403 T.

Replying to your No. 671, of the 1st current, and in continuation of my telegram as per margin, I have the honour to return the plan and estimate for the proposed Telegraph Office at Rajahmundry.

Your No. 671 of the 1st June. Plan approved with slight alteration, 19th June 1871.

2. I have countersigned the plan which, with some slight alterations shown in red ink, will do very well.

3. The estimate will probably require revision, and has not therefore been signed.

No. 512. ORDER THEREON, 29th July 1871, No. 1,996.

TELEGRAPH, No. 7.

His Excellency the Governor in Council does not consider that the convenience of the public will be adequately provided for by the arrangement of appropriating so small a room as 6'x5' to the purposes of a receiving room whilst a large amount of verandah space is left unutilized in other parts of the building. The Acting Superintending Engineer will communicate to the Director General of Telegraphs the views of Government, and, in the event of that officer adhering to the modification in the design which he has proposed, Major Fischer will ascertain whether the further alterations referred to in paragraph 2 of his letter meet with the approval of the Director General of Telegraphs. As in either case it appears probable that the total of the estimate would not be affected, the plan and estimate are sanctioned subject to such alterations as this reference may render necessary.
