No. 516. Read the following Endorsement of the Deputy Consulting Engineer for Railways, dated Madras, 19th July 1871, No. 320:—

From the Acting Agent and Manager of the Madras Railway Company, to the Acting Consulting Engineer for Railways, dated Madras, 15th July 1871, No. 419.

With reference to your endorsement upon G. O., No. 1,045, of the 14th of April last, I have the honour to inform you that the practice on this line has been to varnish all carriages and coaching stock and to coat all goods stock with a preparation of oil and litharge.

2. We have recently taken to painting our stock, although only a small proportion has been so treated.

3. It is proposed, as suggested in the second paragraph of the letter from the Government of India embodied in the above named order, "to carry out the "measure gradually as stock passes through the shops in ordinary course."

4. The colours adopted on this Railway are as follow:—

"1st and 2nd class carriages ...	Cream or white the prominent parts, and framing varnished or coloured bright chocolate, and the venetians painted green.
"All other coaching and wagon stock	Dark chocolate.
"Break vans	Do. do. with ends coloured red.
"Engines and tenders	Green, picked out with white."

From the Agent of the Great Southern of India Railway, to the Acting Consulting Engineer for Railways, dated Negapatam, 21st April 1871, No. 3,987.

In reply to your memorandum No. 112, of the 17th instant, I have to state that this Company has adopted distinctive marks, in preference to a standard colour, for denoting the ownership of their rolling stock.

The distinctive marks are the letters G. S. I. R., which are placed in a prominent position on both sides of each vehicle.

Submitted to Government with reference to G. O., No. 1,045, 14th April 1871.

It will be observed that the measure proposed by the Madras Railway will be carried out as the stock passes through the shops in the ordinary course.

2. In the case of the Great Southern of India Railway no change in the present "distinctive marks" is proposed.

No report is forwarded from the Carnatic Railway as owing to the break of gauge the stock is not now interchangeable.
