Proceedings of the Madras Government, Public Works Department, 18th August 1871.

No. 231. Read the following letter from the Acting Consulting Engineer for Railways, to the Secretary to Government, Public Works Department, dated Madras, 3rd August 1871, No. 339.—

I HAVE the honour to submit, for the sanction of the Government of India, an indent* for two steam pumps, for exhausting water in foundations, required from England by the Agent and Manager of the Madras Railway Company, the approximate cost being Rupees 3,500. The Acting Chief Engineer's letter to the Agent and Manager explains that the pumps are needed for the masonry foundations of the new bridge over the Cheyaur, and for additional protective works on three of the large bridges on the South-West Line.

* No. 51, dated 24th July 1871, in duplicate.

No. 409, dated 24th July 1871.

2. The Railway Company lately borrowed from the Government Workshop such pumps as were in store, but these have been found to be of little service on the examination of bridge foundations by the Committee, and a more powerful pump is certainly required.

No. 232. ORDER THEREON, 18th August 1871, No. 2,128.

RAILWAY, No. 29.

ORDERED that this Indent be forwarded to the Government of India.

(Here enter No. 2,129, dated 18th August 1871.)

RAILWAY, No. 30.

SIR,—I am directed by His Excellency the Governor in Council to forward for the sanction of the Government of India, an Indent on England for two steam pumps which are stated to be much needed for exhausting water in the foundations of the new bridge over the Cheyaur on the North-West Line of the Madras Railway and for employment on the construction of protective works to large bridges on the South-West Line. The approximate cost of the pumps is set down at Rupees 3,500.

I have the honour to be,
Sir,
Your most obedient servant,

Captain, R.E.,
Under Secretary to Government.
